*Chuck Close, Up Close* Jan Greenberg, Sandra Jane Fairfax Jordan, 1998 A biography of the revisionist artist who achieved prominence in the late 1960s for enormous photographically realistic black and white portraits of himself and his friends

Chuck Close John Guare, Chuck Close, 1995-01-01 In December 1988 at a high point of his career a collapsed spinal artery left the painter Chuck Close paralyzed from the shoulders down He was famous by then for his monumental portraits that deconstructed the conventional notions of identity and personality Now Close was forced to confront his own identity could a paralyzed man make monumental art Three years later a show of new Close paintings appeared to the astonishment of the art world they were as large and powerful as ever Not only had he found a way to paint his physically demanding portraits again they had also been transformed A more impressionistic and dynamic vision now throbbed from his canvases with new emotional intensity In this book Close has collaborated with his friend playwright John Guare to produce a narrative account that tells the story of what Close calls the event the day of the trauma itself the months of slowly recovering the minimal movement that allows him to still paint and the transformation of his art as a result The book also brings together all of his new paintings from the last seven years including images of Roy Lichtenstein Eric Fischl April Gornik and other major contemporary artists Taking the reader even further into his vision Close brings Guare behind the canvas and into the Polaroid studio to photograph him as a potential subject for a new portrait With a unique combination of documentary photographs and commentary Close shows how he conceives and begins the process of making a portrait and how the subject plays a role in shaping the final image
