American Cities in Post-Apocalyptic Science Fiction Robert Yeates, 2021-11-15 Visions of the American city in post apocalyptic ruin permeate literary and popular fiction across print visual audio and digital media *American Cities in Post Apocalyptic Science Fiction* explores the prevalence of these representations in American culture drawing from a wide range of primary and critical works from the early twentieth century to today Beginning with science fiction in literary magazines before taking in radio dramas film video games and expansive transmedia franchises Robert Yeates argues that post apocalyptic representations of the American city are uniquely suited for explorations of contemporary urban issues Examining how the post apocalyptic American city has been repeatedly adapted and repurposed to new and developing media over the last century this book reveals that the content and form of such texts work together to create vivid and immersive fictional spaces in ways that would otherwise not be possible Chapters present media specific analyses of these texts situating them within their historical contexts and the broader history of representations of urban ruins in American fiction Original in its scope and cross media approach *American Cities in Post Apocalyptic Science Fiction* both illuminates little studied texts and provides provocative new readings of familiar works such as *Blade Runner* and *The Walking Dead* placing them within the larger historical context of imaginings of the American city in ruins

Contemporary Women's Post-Apocalyptic Fiction Susan Watkins, 2020-02-29 This book examines how contemporary women novelists have successfully transformed and rewritten the conventions of post apocalyptic fiction Since the dawn of the new millennium there has been an outpouring of writing that depicts the end of the world as we know it and women writers are no exception to this trend However the book argues that their fiction is distinctive Contemporary women's work in this genre avoids conservatism a nostalgic mourning for the past and the focus on restoring what has been lost aspects key to much male authored apocalyptic fiction Instead contemporary women writers show readers the ways in which patriarchy and neo colonialism are intrinsically implicated in the disasters they envision and offer qualified hope for a new beginning for society culture and literature after an imagined apocalyptic event Exploring science nature and matter the posthuman body the maternal imaginary time narrative and history literature and the word and the post secular the book covers a wide variety of writers and addresses issues of nationality race and ethnicity as well as gender and sexuality

Making Eden David Beerling, 2019-01-31 Over 7 billion people depend on plants for healthy productive secure lives but few of us stop to consider the origin of the plant kingdom that turned the world green and made our lives possible And as the human population continues to escalate our survival depends on how we treat the plant kingdom and the soils that sustain it Understanding the evolutionary history of our land floras the story of how plant life emerged from water and conquered the continents to dominate the planet is fundamental to our own existence In *Making Eden* David Beerling reveals the hidden history of Earth's sun shot greenery and considers its future prospects as we farm the planet to feed the world Describing the early plant

pioneers and their close symbiotic relationship with fungi he examines the central role plants play in both ecosystems and the regulation of climate As threats to plant biodiversity mount today Beerling discusses the resultant implications for food security and climate change and how these can be avoided Drawing on the latest exciting scientific findings including Beerling's own field work in the UK North America and New Zealand and his experimental research programmes over the past decade this is an exciting new take on how plants greened the continents Immune Oladipo Agboluaje,2015-07-14 An ordinary school day But today there is no going home When the rest of the world has forgotten your existence where do you run when the Apocalypse looms The dock The navy base Or do you just sit tight and ride the whole thing out In a city overcome with death we are finally forced to start living A provocative and darkly comic new play by award winning playwright Oladipo Agboluaje exploring our technological dependency social resilience and the need to belong **The Palgrave Handbook of Utopian and Dystopian Literatures** Peter Marks,Jennifer A. Wagner-Lawlor,Fátima Vieira,2022-03-15 The Palgrave Handbook of Utopian and Dystopian Literatures celebrates a literary genre already over 500 years old Specially commissioned essays from established and emerging international scholars reflect the vibrancy of utopian vision and its resiliency as idea genre and critical mode Covering politics environment geography body and mind and social organization the volume surveys current research and maps new areas of study The chapters include investigations of anarchism biopolitics and postcolonialism and study film art and literature Each essay considers central questions and key primary works evaluates the most recent research and outlines contemporary debates Literatures of Africa Australia China Latin America and the Middle East are discussed in this global cross disciplinary and comprehensive volume **Play in Utopian and Dystopian Fiction** Matthew Leggatt,2025-07-28 Play in Utopian and Dystopian Fiction is a wide ranging and interdisciplinary study of the different forms of play to be found in depictions of radically better and radically worse societies across literary filmic and televisual texts The book sets out to dismantle common myths about the role of play in such fiction by arguing that far from being dull and static utopias are primarily playful and dynamic In contrast in the twentieth and twenty first centuries dystopian fiction has been popularized by reader and audience expectations of spectacular and exciting action but in this book such readings of dystopia are also challenged Accompanying this is a discussion about labor and its role in relation to a future society that might privilege play over work The book covers texts as diverse as Thomas More's originary 1516 travel narrative Utopia and South Korean Netflix dystopian hit Squid Game 2021 25 It consists of chapters detailing the nature of play in utopian fiction the connection between utopia and stasis dystopian forms of violent and deadly play boring dystopias the absurd in utopian and dystopian fiction and finally the future of play promised by new digital utopias and made possible by videogame technologies **Popular Series Fiction for Middle School and Teen Readers** Rebecca L.
