

The book cover for 'Defector' by Susanne Winnacker is a complex collage. It features several overlapping images: a woman's face with green eyes on the left, a man's face with blue eyes on the right, and a hand holding a smartphone in the center. The background is dark, and the collage is held together by white, torn-paper-like edges. The author's name 'SUSANNE WINNACKER' is printed in white at the top. The title 'DEFECTOR' is in large, bold, black letters across the middle. At the bottom right, it says 'A VARIANTS NOVEL' in white.

Traces of Another Time Margaret Scanlan, 2014-07-14 Is the historical novel the outmoded genre that some people imagine form inseparable from romanticism nationalism and the nineteenth century In this stimulating volume Margaret Scanlan answers a convincing no as she demonstrates the relevance of historical novels by well known figures such as Anthony Burgess John le Carr

Graham Greene Doris Lessing Iris Murdoch and Paul Scott as well as by less well established writers such as Joseph Hone and Thomas Kilroy Scanlan shows what a skeptical experimental approach to the relationship between history and fiction these writers adopt and how radically they depart from the mimetic conventions usually associated with historical novels Drawing on contemporary historiography and literary theory Scanlan defines the problem of writing historical fiction at a time when people see the subject of history as fragmentary and uncertain The writers she discusses avoid the great events of history to concentrate on its margins what interests them is history as it is experienced usually reluctantly by human beings who would rather be doing something else The first section of the book looks at fictional representations of England s difficult history in Ireland the second examines spies aliens and the loss of public confidence and the third probes the theme of Apocalypse nuclear or otherwise and depicts the collapse of the British Empire as an instance of the greatly diminished importance of Western culture in the world Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 [The New York Times Book Review](#) ,1966-07 *New York Times Saturday Book Review Supplement* ,1969-07 [The Bondian Cold War](#) Martin D.
