**The Sublime Quran** Laleh Bakhtiar,2009

First translation by American woman Refutes husbands can beat their wives **The Sublime Quran**,2007 This is the first translation of the Quran by an American woman It is a universal and inclusive translation with the hope that Islam will be better understood in the West She also challenges the use of the word to beat in 4:34 as meaning to go away which is how the Prophet of Islam understood the word as it has historically justified violence against and abuse of Muslim women This interpretation must change she says and revert to the way the Prophet understood it

*Retranslating the Bible and the Qur'an* Pieter Boulogne,Marijke H. de Lang,Joseph Verheyden, Despite the lively scholarly discourse on retranslation and its manifest value for uncovering dynamics of cultural change interpretation and reception the retranslation of religious texts has received only fragmented attention in recent years By spanning both historical and current aspects and by treating the Bible and the Qur'an together this book breaks new ground and paves the way for future research on the myriad discursive and religious aspects of retranslation This carefully curated collection of articles compellingly argues that the retranslation of canonical religious texts is a multi faceted phenomenon With cases ranging in time from the early Reformation to the present and traversing linguistic contexts from Russia to Sweden Slovenia to Saudi Arabia the essays capture diverse dimensions of retranslation work The collection demonstrates that retranslations of such texts manifest in different forms depending on the religious political and societal circumstances the targeted audiences and the status of existing translations Their reception too may vary greatly depending on those same circumstances Authored by specialists in the different fields of retranslation of the Bible and the Qur'an each contribution illustrates this complexity and offers a fresh perspective and insight that help lay the groundwork for future research in this area of study
