The New Confessions of an Economic Hit Man John Perkins,2016-02-09 Featuring 15 explosive new chapters this new edition of the New York Times bestseller brings the story of Economic Hit Men up to date and chillingly home to the U S but it also gives us hope and the tools to fight back The previous edition of this now classic book revealed the existence and subversive manipulations of economic hit men John Perkins wrote that they are highly paid professionals who cheat countries around the globe out of trillions of dollars Their tools include fraudulent financial reports

rigged elections payoffs extortion sex and murder In Perkins's case the tool was debt convincing strategically important countries to borrow huge amounts of money for enormous development projects that served the very rich while driving the country deeper into poverty and debt And once indebted these countries could be controlled In this latest edition Perkins provides revealing new details about how he and others did their work But more importantly in an explosive new section he describes how the EHM tools are being used around the world more widely than ever even in the U S itself The cancer has metastasized yet most people still aren't aware of it Fear and debt drive the EHM system We are hammered with messages that terrify us into believing that we must pay any price assume any debt to stop the enemies who we are told lurk at our doorsteps The EHM system employing false economics bribes surveillance deception debt coups assassinations unbridled military power has become the dominant system of economics government and society today It has created what Perkins calls a Death Economy But Perkins offers hope he concludes with dozens of specific concrete suggestions for actions all of us can take to wrest control of our world away from the economic hit men and help give birth to a Life Economy
