

COST ESTIMATION

MEANING

Cost estimation is the process of forecasting the cost of completion of a project, task or operation.

STEPS IN COST ESTIMATION

▶ **KNOW YOUR CLIENT** : It is important to take all limitations or benefits of client.

▶ **WORK WITH BUDGET** : It must be based on certain ground rules and subject to limitations.

▶ **BREAKDOWN APPROACH** : An effective cost estimation must have a break down to the T.

▶ **HAVE A WRIGGLE ROOM** : Should have a room for contingencies

COST ESTIMATION METHODS

- **TOP DOWN ESTIMATION** : Project Manager works from top and breaks down to allocate cost and or hours.
- **ANALOGOUS COST ESTIMATION** : This method relies on data from similar past projects.
- **PARAMETRIC ESTIMATE** : It adds a layer of additional relevant information to arrive at the closest estimate.

Cost Estimating

Project Cost Estimating Nigel J. Smith, 1995-03-31 The aim of this book is to offer advice and information on preparing and using estimates in the civil engineering industry. It deals with estimating at different stages of construction projects and with the practice of estimating. **Cost Estimating** Rodney D. Stewart, 1991 This revision of the author's bestselling earlier work on cost estimating has been updated to provide currently applicable examples, data and techniques. Two new chapters have been added covering computer tools and models for cost estimating, where to get these tools and the features to look for, software cost estimating with special emphasis on the effect of CASE tools on software productivities and resulting software costs. A complete set of inflation tables is now included to permit conversion from any year dollars to any other year dollars from 1959 through 1997. Retains its comprehensive coverage of the elements needed to embark on a cost estimating task. Strengthened are the invaluable parts of the book which tell the estimator how to produce a competitive and credible cost estimate. Manufacturing standards for hardware and electronics are retained as are handy tables for determining the costs of engineering design, documentation, drafting and testing.

Construction Cost Estimating
