*Self-Determination and Collective Responsibility in the Secessionist Struggle* Costas Laoutides, 2016-03-03 The often violent emergence of new independent states following the end of the Cold War generated discussion about the normative grounds of territorial separatism A number of opposing approaches surfaced debating whether and under which circumstances there is a right for a community to secede from its host country Overwhelmingly these studies placed emphasis on the right to secession and neglected the moral stance of secessionist movements as agents in international relations In this book Costas Laoutides explores the collective moral agency involved in secessionist struggles offering a theoretical model for the collective responsibility of secessionist groups Case studies on the Kurds and the people of Moldova Transdnistria illustrate the author's theoretical arguments as he seeks to establish how although the principle of self-determination was envisaged as a means of gradually bestowing political power upon the people it never managed to realize its full potential because it was interpreted strictly within a framework of exclusionary politics of identity

Chung,2015-04-20 As the twentieth century passed its midpoint and was rushing toward its end a growing number of Majority World theologians came to realize that they could in fact do theology in their own contexts for the benefit of their own people Thus from the 1960s onward theologians in the global South have embarked on a form of theological construction that has sometimes been described as contextual reflection or contextualized theology This volume is motivated by the conviction that these efforts have resulted in theological work that is also beneficial for Christians in other parts of the world The editors have invited Majority World theologians to share their reflections on several themes of Christian faith from their own sociohistorical perspectives but with an unswerving commitment to the authority of Scripture It is hoped that these fresh reflections will help Christians in the West engage and benefit from the perspectives of fellow believers in the global South
