Counseling Multicultural and Diverse Populations Nicholas A. Vacc, Susan B. DeVaney, Johnston M. Brendel, 2003 Professionals in helping occupations hold the key to reducing social economic and emotional barriers that often prevent members of America's subgroups from becoming secure citizens Multicultural Counseling Competencies Donald B.

Pope-Davis, Hardin L. K. Coleman, 1996-11-05 Multicultural Counseling Competence represents the next giant step toward implementing multicultural standards into the counseling profession. Logically organized and with a list of impressive contributors, this book not only is well grounded in theory and research but is a practical guide to how graduate schools of counseling, clinical psychology, social work, and other helping professions might infuse multicultural competence into their faculty and students' curriculum, field work, and supervision. The editors have made a major substantive contribution to the counseling profession with this text. They have accepted the challenge of cultural diversity and are serving the roles of pioneers in seeking both individual and institutional multicultural competence. From the Foreword by Derald Wing Sue: Professional associations such as the American Psychological Association and the American Counseling Association are beginning to mandate cultural counseling competencies in their ethical guidelines. That is, counselors who work with ethnically, linguistically, and culturally diverse clients must be multiculturally competent. How can multicultural competency be assessed in counselors? How can these competencies be acquired? In this volume, a cast of leading researchers and educators in multicultural counseling and psychology addresses the issues of what makes a counselor multiculturally competent and how to create more culturally competent counselors. Multicultural Counseling Competence considers ways to evaluate counselors for their awareness, knowledge, and skills in working with a broad spectrum of populations. Chapters also examine at length the pedagogical implications of establishing competencies, including training philosophies and models, as well as course and curriculum development. Likewise, a group of contributors considers the impact that multiculturalism has on supervision and the theories and strategies that supervisors can use to ensure a culturally competent clinical environment. A cornerstone volume, Multicultural Counseling Competence pulls together the essence of issues facing the establishment of competencies. Counseling educators and supervisors especially will want to use this book to ensure that their programs help counselors become more culturally aware and serve all clients with efficiency and respect.

Multicultural Counseling and Psychotherapy Leroy G. Baruth, M. Lee Manning, 1999 Written to explore the lives and potential counseling problems of African American, Asian American, European American, Hispanic American, and Native American populations, this text considers the powerful influences of a client's developmental stage and cultural background. It maintains that integrating multicultural and lifespan considerations is crucial to counseling effectiveness. The authors also advocate an understanding of individual differences: cultural, ethnic, racial, gender, sexual orientation, socioeconomic, and individual, in order for counselors to use existing strategies to their best advantage. Intervening with clients from diverse backgrounds, understanding and counseling specific groups during various lifespan stages, and professional issues, future directions of the multicultural counseling field are also covered.
