- **Piaget:** Swiss psychologist who created theory of cognitive development to explain the processes by which humans come to perceive, organize knowledge, and problem-solve and understand the world. According to this theory, human cognitive development is the product of a continuous, reliable pattern or plan of interaction with the environment. Humans are a culture. Humans are goal-oriented strategists that help the person achieve some intended result. There are human are autonomous (constructing his theory and early skills, in which culture and nature (genetics are prevalent) and cognition (based on experience and on mental images, reflecting the person's ability to develop the use of abstract reasoning and symbolism).
- **Erkman:** German psychologist who worked on human psychosexual development theory. Created 8 stages of life.
- **Robert Rorter:** Proposed panic theory, calling it both narcissism and development in women. Thought, theory proposed that men experience feelings of inferiority because they cannot give birth to children.
- **Western & Eastern:** Created another basic distinction, which focuses on pregenital sexuality. Begins with non-genital touching only, leads to genital touching. Used to measure pleasure without pressure to perform and/or achieve orgasm.
- **John Turk and Virginia Johnson:** started functional theory. They attributed to the school of life as Pk and influenced the work of Freud, theory & Marie. This school was presented in contrast to the dogmatic school of thought (which was previously psychoanalytic).
- **Anna Freud:** worked on psychology
- **Willy Reich:** founder of last all theory
- **Malcolm:** founder of object relations theory
- **Carl Rogers:** founder of client-centered theory
- **Freud & Malcom & Garma:** founder of systems theory
- **Adrianne:** "Father of family therapy." He particularly used a psychoanalytic approach, insight oriented
- **Kate & Whitaker:** Communication in family therapy. Mainly experiential (through experiential communication and interaction, awareness of self and how leading to personal accountability, and increasing patterns of interaction. Later focused on communication problems, double bind, faulty communication is caused by low self-esteem, and the presence of a parent that is threatening. Whitaker mostly oriented with awareness and discussed the transference phenomenon. Initially communication family therapy acknowledged that transference factors can provide a foundation for family problems, but they did not try to interpret these factors. Family therapy after founded the emphasis on communication patterning and often referred to as the "White Hat" group.
