

## Couplet Poetry

A couplet is a pair of lines.

These two lines typically rhyme together.

They are also the same length due to the same number of syllables present.

*Couplets are used in poetry in order to create a rhyming flow.*

Some examples of couplets within poems:

It's hard to see the butterfly,  
As it flies across the night sky.

I made the biscuits one by one,  
I'm waiting for the bell, they're done.

Lightning, thunder all around,  
So much rain falls to the ground.

ink saving
