Developing Programs In Adult Education A Conceptual Programming Model:

Developing Programs in Adult Education Edgar J. Boone, R. Dale Safrit, Jo Jones, 2002-05-10 The Second Edition of *Developing Programs in Adult Education* will serve as an indispensable guide for current and prospective adult educators in planning, designing, implementing and evaluating accounting for adult education programs. Like the successful First Edition, this revised and expanded volume presents a conceptual programming model that draws from many concepts, constructs and theories generated by adult educators and other scholars in closely allied disciplines. The updated model, field tested and validated, enhances and elaborates on the complex contextual relationships and processual actions represented in the original. The authors offer illustrative applications within varied organizational contexts and provide a panorama of both macro and micro perspectives and actions of a program planning process with examples from various fields of adult education practice. This innovative text is the definitive authority on one of the few theoretical models of the programming process based in systems theory merged with the practice ecology of adult education.

Developing Programs in Adult Education Edgar John Boone, 1992 This book represents the distillation of the author's knowledge and experience gained over twenty years of research teaching the practical application of his conceptual programming model for adult education.

Needs Analysis and Programme Planning in Adult Education Simona Sava, 2012-10-30 How to identify, analyse and assess the various types of adult learning needs. How to develop programmes tailored to these needs. This study guide is written for postgraduate students preparing to become professional adult educators as well as for those intending to plan educational programmes for adults. The book covers the various types of adult learning needs and provides hints on how to identify, analyse and assess these needs. It presents typical challenges involved in performing such an analysis as well as theoretical considerations of the concept and types of needs of diagnosing educational needs and their theoretical understanding. The author draws conclusions on how to develop programmes tailored to the needs identified. With a focus on practical concerns, she illustrates the necessary steps as well as the factors to be considered when designing an educational programme for adults both in the planning stage and in the stages of implementation and evaluation.

From the Contents: The Importance of Needs Analysis and Programme Planning in Adult Education; Needs: Theoretical Considerations; Fields of Needs Analysis in an Educational Context; Methods of Needs Analysis in Adult Education; Needs Analysis for Planning Educational Programmes; Steps in Programme Planning in Adult Education.
