*Progressive Neoliberalism in Education* Ajay Sharma, Mardi Schmeichel, Elizabeth Wurzburg, 2022-08-15 This volume makes the novel contribution of applying Nancy Fraser's concept of progressive neoliberalism to education in order to illustrate how social justice efforts have been co opted by neoliberal forces. As well as recognising the lack of consensus surrounding the very nature of Fraser's concept of progressive neoliberalism the book delivers a diversity of perspectives and methodological orientations that offer critical and nuanced examination of the diverse ways in which progressive neoliberalism has shaped education in North America. Documenting manifestations of progressive neoliberalism in areas including anti racist education teacher education STEM and assessment the volume uses qualitative empirical research and critical discourse analysis to identify emerging tools and strategies to disentangle the progressive aims of education from neoliberal agendas. Offering a rarely nuanced treatment of the phenomenon of neoliberalism this text will benefit scholars academics and students in the fields of education policy and politics the sociology of education and the philosophy of education more broadly. Those involved with the theory of education and multicultural education in general will also benefit from this volume

**School Choice and the Betrayal of Democracy** Robert Asen, 2021-10-04 Evidence shows that the increasing privatization of K 12 education siphons resources away from public schools resulting in poorer learning conditions underpaid teachers and greater inequality. But as Robert Asen reveals here the damage that market based education reform inflicts on society runs much deeper. At their core these efforts are antidemocratic. Arguing that democratic communities and public education need one another Asen examines the theory driving privatization popularized in the neoliberalism of Milton and Rose Friedman as well as the case for school choice promoted by former secretary of education Betsy DeVos and the controversial voucher program of former Wisconsin governor Scott Walker. What Asen finds is that a market based approach holds not just a different view of distributing education but a different vision of society. When the values of the market choice competition and self interest shape national education that policy produces individuals Asen contends with no connections to community and no obligations to one another. The result is a society at odds with democracy. Probing and thought provoking School Choice and the Betrayal of Democracy features interviews with local on the ground advocates for public education and offers a countering vision of democratic education one oriented toward civic relationships community and equality. In large part these opinions are offered by people and organizations who know little about schools. But who are these influencers? This

book is about conservative philanthropies the organizations and individuals within their networks and the strategies they use to shape educational policy and practice in K 12 and higher education Each chapter examines a philanthropy philanthropic network or corporation focused on pushing an agenda of individualism privatization and conservative ideologies Based in extensive research including the tax filings of specific philanthropic foundations the authors demonstrate how the philanthropic elite work within federal state and local governmental contexts to influence policy and practice Within a global context of increasing wealth inequality the authors question the motivations of these privileged few to withhold tax dollars from the US treasury where duly elected representatives can determine how tax dollars are used to benefit society By allowing these philanthropic organizations tax exemptions under the guise of assumed benevolence are citizens giving up their ability to hold these organizations accountable for how the money is spent This book aimed at a general audience of educators provides the in depth knowledge necessary to understand and resist private control of public policies and institutions
