

# 3 MAIN STEPS OF MEDITATION

## COMFORTABLE SITTING POSITION

Sitting in a straight back, knees crossed, hands on knees or mudra position, and eyes closed is the recommended sitting position.

## FOCUS ON BREATHING

Concentrate on breathing. Inhale slowly and deeply, hold for a moment, and then exhale slowly as well.

## MANAGE SCATTERED THOUGHTS

You can observe and monitor these thoughts without getting attached to them, and there's no need to reject or suppress them.

**Steps towards a Mindful Organisation** Fabrice Mielke, 2021-03-23 This book presents a guideline for turning any organisation into a more mindful one, allowing it to manage unexpected events and develop stronger resilience. The author conducted empirical research with a German IT company's staff and its leadership in a longitudinal way. The whole team was trained in individual mindfulness competencies. Individual mindfulness is a state of being that can be developed through mindfulness meditation. When combined with social interactions, cultural adaptations, and structural changes, collective mindfulness develops. Collective mindfulness allows an organisation to become more agile. The author argues that mindfulness training influences the openness and knowledge sharing behaviour of an organisation, first on an individual and then on a collective level. Such training can generate awareness, increase empathy between team members, and lead towards a more successful organisation. This study can inspire team managers to improve the work environment as well as academics to update their current level of research in the field of individual and collective mindfulness.

**Mindfulness: Step by Step Guide to Mindful Meditation** Gary Owens, 2016-09-25 Mindfulness Meditation: Peace and Tranquility. You can't find happiness in your past. You can't find happiness in your future. You can find happiness in your present. There is life in the here in the now, and it is real happiness. Through mindfulness, you can harness your energy within, to be aware of the things that can make you happy. There is no need to wait for decades before you can feel happiness. You can be happy every day. Many of us are alive yet don't recognize this as a miracle. But if you focus on your breathing and you become mindful of every movement of your lungs, you are experiencing a miracle within. Some of us are forgetful because we are not truly present in the now. Our mind could be trapped in our anger, our regrets, our fears, and we might be failing to see what is being there. This is known as forgetfulness. Someone can be physically present but his mind is somewhere else. You might be trapped in the future or past. You're not living in the here and in the now. This is forgetfulness, which is on the other side of the spectrum of mindfulness. This book contains proven steps and strategies on how you can harness the power of mindfulness meditation to find your way to your happiness and tranquility within. Probably you have heard about meditation as a way to take a break, to be calm, or to think deeply. But there is so much more about meditation. You can use this as a way

Cronin,2020-10-26 If you are holding this book in your hands then you are looking for answers This book does not contain

answers It contains a path that will lead to answers The answers are within you Give yourself a chance take the book home read in a relaxed home environment It does not take a lot of time but it will save enough of it for a real search Are you a professional helping others Read this book and tell your customers about it Perhaps it will save you time and help improve your interaction in the professional field Are you a manager Employees practicing a more conscious lifestyle and as a result of practicing meditation become less susceptible to stress more stable in work and give out a better product in a shorter time The book unites the author and reader with the general concept of we This involves a joint search for solutions and interaction The writer and the reader are interconnected Without a writer there is no book but there is no book without a reader Together we make the book a reality When the concept of you is used when instructions are given then there is a division into the one who knows something and those who are taught This is not quite the right approach because we learn together Creating the text the author collects the accumulated experience and reveals something new and the one who reads the text adopts this experience something new comes into his inner world We are united in this process through writing and reading
