**Establishing Quantum Physics in Göttingen** Arne Schirrmacher,2019-08-01 Quantum mechanics the grandiose theory that describes nature down to the submicroscopic level was first formulated in Göttingen in 1925 How did this come about and why is it that Göttingen became the pre eminent location for a revolution in physics This book is the first to investigate the wide range of factors that were pivotal for quantum physics to be established in Göttingen These include the process of generational change of physics professors the hopes of mathematicians seeking new fields of research and a new understanding of the interplay of experiment theory and philosophy The other books in the four volume collection address the beginnings of quantum physics research at Copenhagen Berlin and Munich These works emerged from an expansive study on the quantum revolution as a major transformation of physical knowledge undertaken by the Max Planck Institute for the History of Science and the Fritz Haber Institute 2006 2012 For more on this project see the dedicated Feature Story The Networks of Early Quantum Theory at the Max Planck Institute for the History of Science <https://www.mpiwg-berlin.mpg.de/feature-story/networks-early-quantum-theory>

**The World in the Model** Mary S. Morgan,2012-09-17 During the last two centuries the way economic science is done has changed radically it has become a social science based on mathematical models in place of words This book describes and analyses that change both historically and philosophically using a series of case studies to illuminate the nature and the implications of these changes It is not a technical book it is written for the intelligent person who wants to understand how economics works from the inside out This book will be of interest to economists and science studies scholars historians sociologists and philosophers of

science But it also aims at a wider readership in the public intellectual sphere building on the current interest in all things economic and on the recent failure of the so called economic model which has shaped our beliefs and the world we live in
