Origins and Destinations Study of Older Persons Kathleen L. Andereck,2008 The purpose of this research was to help provide insight into the travel behavior and transportation needs of older persons in Pima County Several methods of data collection were done including face to face in home interviews of seniors with mobility limitations interviews with seniors who attended senior centers and a mail survey to a sample that was representative of seniors in Pima County The results of the study suggest that seniors are primarily responsible for meeting their own transportation needs However as these seniors age they are facing more challenges in managing their needs to travel freely around their communities The seniors we surveyed at the senior centers are more at risk than the seniors we surveyed through the mailed survey because of lower income lower health status and a larger number who live alone Seniors driving habits are changing Almost half report driving less in the past 2 years and 40% of respondents had no knowledge of public transportation services available in their communities While 71% would prefer a friend or family member to drive when they cannot seniors who live alone will have limited options The lack of transportation services can have a significant impact on quality of life for these seniors Many cited less participation in leisure activities because of driving less More than half feel that it would be difficult to remain in their current home if they are no longer able to drive In fact 24% have moved into a new residence since they stopped driving Seniors need more transportation options to stay active and involved The vast majority of the trips they make on a daily weekly basis are for social events to do errands or go to church Seniors feel that improving the quality of transportation services in the community will involve more dependable transportation and having a variety of options for transportation services *Employee Benefits Cases* ,1995 *Do-it-yourself Retailing* ,1986 *The Clothes Make the Girl (Look Fat)?* Brittany Gibbons,2017-12-26 The New York Times bestselling author of *Fat Girl Walking* delivers a sartorial follow up that once again deep dives into the world of the curvy woman As body acceptance spokesmodel and blogger Brittany Gibbons knows what we choose to wear is especially important and especially emotional for curvy women This isn t only because curvy women feel underrepresented and underserved by the fashion world For the curvy woman who struggles with feelings
