Language Acquisition and Conceptual Development Melissa Bowerman, Stephen C. Levinson, 2001-01-11 Recent years have seen a revolution in our knowledge of how children learn to think and speak In this volume leading scholars from

these rapidly evolving fields of research examine the relationship between child language acquisition and cognitive development. At first sight, advances in the two areas seem to have moved in opposing directions: the study of language acquisition has been especially concerned with diversity, explaining how children learn languages of widely different types, while the study of cognitive development has focused on uniformity, clarifying how children build on fundamental, presumably universal concepts. This book brings these two vital strands of investigation into close dialogue, suggesting a synthesis in which the process of language acquisition may interact with early cognitive development. It provides empirical contributions based on a variety of languages, populations, and ages, and theoretical discussions that cut across the disciplines of psychology, linguistics, and anthropology.

Language Development Patricia J. Brooks, Vera Kempe, 2012-05-14 From the first moment of life, language development occurs in the context of social activities. This book emphasises how language development interacts with social and cognitive development and shows how these abilities work together to turn children into sophisticated language users, a process that continues well beyond the early years. Covering the breadth of contemporary research on language development, Brooks and Kempe illustrate the methodological variety and multi-disciplinary character of the field, presenting recent findings with reference to major theoretical discussions. Through their clear and accessible style, readers are given an authentic flavour of the complexities of language development research. With such research advancing at a rapid pace, Language Development uncovers new insights into a variety of areas, such as the neurophysiological underpinnings of language, the language processing capabilities of newborns, and the role of genes in regulating this amazing human ability.

Born to Talk Lloyd M. Hult, Merle R. Howard, Kathleen R. Fahey, 2011 In a new fifth edition that offers exciting expansions and updates, *Born To Talk* continues to provide college students of all levels with a contemporary and comprehensive view of speech and language development in a reader-friendly and interactive manner. Structured to reflect the actual development of language in a child, this engaging text introduces readers to research-based information on the nature of human communication, theories of language and cognitive development, the anatomy and physiology of speech, milestones of language and literacy, cultural and linguistic diversity in language acquisition, and speech and language disorders. The new revised fifth edition of *Born To Talk* includes up-to-date research on the impact of parent-child interactions, language samples from one child across the first three years, and emergent literacy in preschool. The revision also expands on the acquisition of the sound system and brings an integrated perspective of childhood language disorders through case examples. New to this Edition: New research is covered throughout the book regarding the impact of parent-child interactions, language samples from one child across the first three years, and emergent literacy in preschool. An expanded section on the acquisition of the sound system helps readers better understand a vital aspect of language development. New case studies found throughout the text provide students with real-life examples of childhood language disorders. Reviewers are saying: "I was thrilled to find *Born to Talk* to use as a text for my undergraduate language acquisition

course and as a supplement for my graduate early literacy course The book is challenging for students but as scholarly as it is it is also interesting and makes the study of language acquisition come alive for the students Margaret Coxwell Minot State University
