

He follows me down
the dark streets of my mind,
I hear his footsteps
follow closely behind.
He plays with my thoughts,
lives in my dreams.
He's the seductive voice
that calls to me, whispering
that I need to be free.
He's the darkness
that stirs inside of me.
He's the deviant shadow
nobody sees.

Deviant Propulsion Poems:

Deviant Propulsion C. A. Conrad, 2006-04-05 Delving into the center of the endless webs of repression against our bodies desires politics and imaginations are those whose actions and motion cut away at the systemic limitations of society this collection of poems was written with the inspiration and work of these people in mind As a working class queer poet Conrad has had to fight through different stratifications of oppression his entire life His poems vibrate with the flamboyant desire that manifests itself in queer culture where the right to act on basic desires can become a battleground and everyday acts of love and devotion must be enacted as a political form of defiance *Deviant Propulsion* is dedicated to the elimination of fear The title refers to the idea that those who are deviant propel the world forward at top speed The poems that emerge from this life long struggle illustrate the sharp edge of that defiance and desire where joy is closely linked to death In a world ruled by those who govern with fear and in a landscape barbed with those who are terrified of desire moving at speed of deviants is the only way to transform potential into action and desire into positive change

Magic and the Occult in Contemporary Poetry Daniel John

Pilkington, 2026-01-01 *Magic and the Occult in Contemporary Poetry* investigates the relationship between poetry and magic in the context of contemporary poetics. It traces the history of magical poetics and the poetry of the occult to the present in order to ask in the context of contemporary US poetry what potential there is for a magical poetics or a poetics of the occult today. The book argues that a magical or occult poetics offers a vital counterpoint to more mainstream poetic trends. It defines a magical or occult poetics in terms of the willingness of a poet to entertain a magical worldview for the purposes of writing poetry or the willingness to experiment with creative techniques and processes derived from magical or occult practices. It explores the allure of the poet as magician, the conceptualization of language as inherently magical, and the implications of adopting a magical perspective in poetic creation. It also delves into the specific creative techniques and processes central to magical and occult poetics, including the use of spellcraft, trance, divination, and ritual in the composition of poetry.

Literary Philadelphia: A History of Poetry and Prose in the City of Brotherly Love Thom Nickels, 2015 Since Thomas Paine and Benjamin Franklin put type to printing press, Philadelphia has been a haven and an inspiration for writers. Local essayist Agnes Repplier once shared a glass of whiskey with Walt Whitman, who frequently strolled Market Street. Gothic writers like Edgar Allan Poe and George Lippard plumbed the city's dark streets for material. In the twentieth century, Northern Liberties native John McIntyre found a backdrop for his gritty noir in the working-class neighborhoods, while novelist Pearl S. Buck discovered a creative sanctuary in Center City. From Quaker novelist Charles Brockden Brown to 1973 U.S. poet laureate Daniel Hoffman, author Thom Nickels explores Philadelphia's literary landscape.

Word Toys Brian Kim Stefans, 2017-07-25 An engaging and thought-provoking volume that speculates on a range of textual works poetic, novelistic, and programmed as technical objects. With the ascent of digital culture, new forms of literature and literary production are thriving that include multimedia, networked, conceptual, and other as yet unnamed genres, while traditional genres and media—the lyric, the novel—the book has transformed. *Word Toys: Poetry and Technics* is an engaging and thought-provoking volume that speculates on a range of poetic, novelistic, and programmed works that lie beyond the language of the literary and which views them instead as technical objects. Brian Kim Stefans considers the problems that arise when discussing these progressive texts in relation to more traditional print-based poetic texts. He questions the influence of game theory and digital humanities rhetoric on poetic production and how non-digital works such as contemporary works of lyric poetry are influenced by the recent ubiquity of social media, the power of search engines, and the public perceptions of language in a time of nearly universal surveillance. *Word Toys* offers new readings of canonical avant-garde writers such as Ezra Pound and Charles Olson, major successors such as Charles Bernstein, Alice Notley, and Wanda Coleman, mixed-genre artists including Caroline Bergvall, Tan Lin, and William Poundstone, and lyric poets such as Harryette Mullen and Ben Lerner. Writers that trouble the poetry/science divide such as Christian B. K. and novelists who have embraced digital technology such as Mark Z. Danielewski and the elusive Toadex, *Hobogramathon* anchor reflections on the nature of creativity in a world where authors

collaborate even if unwittingly with machines and networks In addition Stefans names provocative new genres among them the nearly formless undigest and the transpacific miscegenated script arguing by example that interdisciplinary discourse is crucial to the development of scholarship about experimental work **Poetry Project** ,2006 *State of the Union* Joshua Beckman,Matthew Zapruder,2008-09-01 A political anthology from the front lines of American poetics **Bombay Gin** ,2006 *The Poetry of Jayanta Mahapatra* Madhusudan Prasad,2000 Contributed articles **The I.e. Prior to Meaning Steve McCaffery,2001 Prior to Meaning collects a decade of writing on poetry language and the theory of writing by one of the most innovative and conceptually challenging poets of the last twenty five years In essays that

are wide ranging richly detailed and novel in their surprising juxtapositions of disparate material Steve McCaffery works to undo the current bifurcation between theory and practice to show how a poetic text might be the source rather than the product of the theoretical against which it must be read **The National union catalog, 1968-1972** ,1973 **New Worlds for Old** David Ketterer,1974
