**EBOOK Lifestyle Medicine** Garry Egger, 2015-03-06 Highly Commended in the British Medical Association book awards 2011. Lifestyle Medicine 2nd Edition is the essential book for contemporary times. It concentrates largely on the contribution that can be made directly by the clinician at the personal level. The rise in obesity worldwide has focused attention on lifestyle as a prominent cause of disease. However obesity is just one manifestation, albeit an obvious one, of lifestyle related problems. Others include a range of health problems that have resulted from the environment and behaviours associated with our modern way of living. Inactivity, poor and over nutrition, smoking, drug and alcohol abuse, inappropriate medication, stress, unsafe sexual behaviour, inadequate sleep, risk taking and environmental exposure for example sun chemicals and the built environment are significant modern causes of disease. New and adaptive approaches to health management are needed to deal with these complex factors. Lifestyle Medicine 2e provides these tools to enable clinicians to successfully manage patients in our current environment

was published in 1939 teaching a simple yet effective set of five exercises for health and longevity the Five Rites Certain dietary rules and lifestyle principles accompanied the Rites so did a Sixth Rite that worked the diaphragm muscles and redirected sexual energies and also a set of teachings about seven energy centers or vortices in the body though not the same as the well known seven chakras along the spine These vortices are among the most distinctive things about the system and are found in only a scattered handful of sources elsewhere It is by awakening the vortices to their normal rate of spin the book claims that the Rites achieve their effects John Michael Greer follows each of these threads back as far as possible to reveal something of the landscape of ideas and practices that gave rise to these remarkable exercises He then spins the threads back together putting the Five Rites in as much of their original context as he can and describing in detail the practice of the broader system in which the Rites have their place a system of inner alchemy meant to awaken certain subtle powers of the human body and mind The book also includes the complete original text of The Eye of Revelation
