Treasure* , 1969 **Johnson, Rasselas, and the Choice of Criticism** Edward Tomarken, 2021-10-21 Although *Rasselas* has received more critical commentary than almost any other work by Samuel Johnson Edward Tomarken s book is the first full length study to focus on his tale of the Prince of Abyssinia This anomaly arises as Tomarken shows because *Rasselas* has remained resistant to the customary critical approaches of the eighteenth nineteenth and twentieth centuries consistently eliciting new kinds of insights and raising new sorts of problems Tomarken s contribution is a new methodology to explain this phenomenon He sees Johnson s early writings *London* and *Irene* as instances of the writer trying with only partial success to achieve what he first realized in *The Vanity of Human Wishes* a means of permitting literary form to refer to conduct Later works such as *The Journey to the Western Islands of Scotland* are viewed as further developments of this method which achieved its fullest expression in *Rasselas* and *the Life of Pope* Such a reading of Johnson develops an aesthetic that operates on the margins between the literary and the extra literary Although Johnson s own critical view was unable to accommodate such a position Tomarken shows that in practice he moved toward it by a process of trial and error manifest in his poetry and narratives When raised to the level of critical method this approach goes beyond the assumptions not only of Johnson s day but also of our own Tomarken s theoretical coda demonstrates how the choices of current critical theory like those in the marriage debate in *Rasselas* can be understood to interact with one another Specifically he proposes a dialectical relationship for two approaches hermeneutics and structuralism usually seen as opposed to one another This innovative study will interest not

only Johnson scholars but all those concerned with critical theory The Cambridge History of English Literature ,1913
 The Pursuit of Reason Charles Francis Keary,1910 **The history of the decline and fall of the Roman empire**
