Taking Back Philosophy Bryan W. Van Norden, 2017-12-05 Are American colleges and universities failing their students by refusing to teach the philosophical traditions of China, India, Africa, and other non-Western cultures? This biting and provocative critique of American higher education says yes. Even though we live in an increasingly multicultural world, most philosophy departments

stubbornly insist that only Western philosophy is real philosophy and denigrate everything outside the European canon In *Taking Back Philosophy* Bryan W Van Norden lambastes academic philosophy for its Eurocentrism insularity and complicity with nationalism and issues a ringing call to make our educational institutions live up to their cosmopolitan ideals In a cheeky agenda setting and controversial style Van Norden an expert in Chinese philosophy proposes an inclusive multicultural approach to philosophical inquiry He showcases several accessible examples of how Western and Asian thinkers can be brought into productive dialogue demonstrating that philosophy only becomes deeper as it becomes increasingly diverse and pluralistic *Taking Back Philosophy* is at once a manifesto for multicultural education an accessible introduction to Confucian and Buddhist philosophy a critique of the ethnocentrism and anti intellectualism characteristic of much contemporary American politics a defense of the value of philosophy and a liberal arts education and a call to return to the search for the good life that defined philosophy for Confucius Socrates and the Buddha Building on a popular New York Times opinion piece that suggested any philosophy department that fails to teach non Western philosophy should be renamed a Department of European and American Philosophy this book will challenge any student or scholar of philosophy to reconsider what constitutes the love of wisdom

Cartesian Nightmare Peter A. Redpath, 1997 This book challenges the presupposition among professional philosophers that Ren Descartes is the Father of Modern Philosophy It demonstrates by intensive textual analysis of Descartes s *Discourse and Meditations* that he inaugurated a new type of sophistry rather than a new way of conducting philosophy Transcendental Sophistry is a synthesis of Renaissance humanism and Christian theology especially the theology of creation This striking re evaluation of the achievement of Descartes opens the history of Western philosophy to radical reinterpretation

Continued Louis Mackey,2002-03-26 Dissenting from college course messages of philosophy as the normative way to frame truth and literature as the less valid one Mackay U of Texas at Austin apparently argues that their relationship is the deconstruction of their difference Drawing on previously published writings and original essays his analysis includes readings of Aristotle s Metaphysics and Poetics Kant on the fiction of philosophy N Fry s theory of criticism the rhetoric of courtly love and works of the Pynchon family from the Puritan to contemporary eras Annotation copyrighted by Book News Inc Portland OR Global Philosophy of Religion Joseph Runzo,2001-03 In this fascinating introduction Joseph Runzo presents a uniquely global perspective on the philosophy of religion Covering such key topics as the existence of God and the connection between religion and ethics he addresses the traditional questions as they appear in all the world faiths

Postmodern Philosophy and Law Douglas E. Litowitz,1997 The author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably Friedrich Nietzsche Michel Foucault Jacques Derrida Francois Lyotard and Richard Rorty He concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system Annotation copyrighted by Book News Inc Portland OR
