## **Cli Fi Novel Stories:**

Cli-Fi and Class Debra J. Rosenthal, Jason de Lara Molesky, 2023-10-09 Since its emergence in the late twentieth century climate fiction or cli fi has concerned itself as much with economic injustice and popular revolt as with rising seas and soaring temperatures Indeed with its insistent focus on redressing social disparities cli fi might reasonably be classified as a form of protest literature As environmental crises escalate and inequality intensifies literary writers and scholars alike have increasingly scrutinized the dual exploitations of the earth s ecosystems and the socioeconomically disadvantaged Cli Fi and Class focuses on the representation of class dynamics in climate change narratives With fifteen essays on the intersection of the economic and the ecological addressing works ranging from the novels of Joseph Conrad Cormac McCarthy and Octavia Butler to the film Black Panther and the Broadway musical Hadestown this collection unpacks the complex ways economic exploitation impacts planetary well being and the ways climatic change shapes those inequities in turn **(Eco)Anxiety in Nuclear Holocaust Fiction and Climate Fiction** Dominika Oramus, 2023-07-07 Eco Anxiety in Nuclear Holocaust Fiction and Climate Fiction Doomsday Clock Narratives demonstrates that disaster fiction nuclear holocaust and climate change alike allows us to unearth and anatomise contemporary psychodynamics and enables us to identify pretraumatic stress as the common denominator of seemingly unrelated types of texts These Doomsday Clock Narratives argue that earth s demise is soon and certain They are set after some catastrophe and depict people waiting for an even worse catastrophe to come References to geology are particularly important in descriptions of the landscape the emphasis falls on waste and industrial bric a brac which is seen through the eyes of a future posthuman archaeologist Their protagonists have the uncanny feeling that the countdown has already started and they are coping with both traumatic memories and pretraumatic stress Readings of novels by Walter M Miller Nevil Shute John Christopher J G Ballard George Turner Maggie Gee Paolo Bacigalupi Ruth Ozeki and Yoko Tawada demonstrate that the authors are both indebted to a century old tradition and inventively looking for new ways of expressing the pretraumatic stress syndrome common in contemporary society This book is written for an academic audience postgraduates researchers and academics specialising in British Literature American Literature and Science Fiction Studies *Fiction and the Sixth Mass Extinction* Jonathan Elmore, 2020-04-01 Fiction and the Sixth Mass Extinction is one of the first works to focus specifically on fiction s engagements with human driven extinction Drawing together a diverse group of scholars and approaches this volume pairs established voices in the field with emerging scholars and traditionally recognized climate fiction cli fi with texts and media typically not associated with Anthropocene fictions The result is a volume that both engages with and furthers existing work on Anthropocene fiction as well as laying groundwork for the budding subfield of extinction fiction This volume takes up the collective insistence on the centrality of story to extinction studies In various and disparate ways each chapter engages with the stories we tell about extinction about the extinction of animal and plant life and about the extinction of human life itself Answering the call to action of extinction

studies these chapters explore what kinds of humanity caused this event and what kinds may live through it what cultural assumptions and values led to this event and which ones could lead out of it what relationships between human life and this planet allowed the sixth mass extinction and what alternative relationships could be possible Loosed Upon the World John Joseph Adams, 2015-09-15 An anthology of twenty six short stories exploring the future of climate change and its effects on life on Earth includes contributions from Margaret Atwood Paolo Bacigalupi and Kim Stanley Robinson Teaching the Literature of Climate Change Debra J. Rosenthal, 2024-04-26 Over the past several decades writers such as Margaret Atwood Paolo Bacigalupi Octavia E Butler and Kathy Acker have explored climate change through literature reflecting current anxieties about humans impact on the planet Emphasizing the importance of interdisciplinarity this volume embraces literature as a means to cultivate students understanding of the ongoing climate crisis ethics in times of disaster and the intrinsic intersectionality of environmental issues Contributors discuss speculative climate futures the Anthropocene postcolonialism climate anxiety and the usefulness of storytelling in engaging with catastrophe The essays offer approaches to teaching interdisciplinary and cross listed courses including strategies for team teaching across disciplines and for building connections between humanities majors and STEM majors The volume concludes with essays that explore ways to address grief and to contemplate a hopeful future in the face of apocalyptic predictions *Handbook of Climate Change Communication: Vol. 2* Walter Leal Filho, Evangelos Manolas, Anabela Marisa Azul, Ulisses M. Azeiteiro, Henry McGhie, 2017-11-19 This comprehensive handbook provides a unique overview of the theory methodologies and best practices in climate change communication from around the world It fosters the exchange of information ideas and experience gained in the execution of successful projects and initiatives and discusses novel methodological approaches aimed at promoting a better understanding of climate change adaptation Addressing a gap in the literature on climate change communication and pursuing an integrated approach the handbook documents and disseminates the wealth of experience currently available in this field Volume 2 of the handbook provides a unique description of the theoretical basis and of some of the key facts and phenomena which help in achieving a better understanding of the basis of climate change communication providing an essential basis for successful initiatives in this complex field Cli-fi Axel Goodbody, Adeline Johns-Putra, 2018 Proto Climate Change Fiction Speculative future fiction dystopian and post apocalyptic narratives Realist narratives set in the present and near future Thriller crime conspiracy social satire Children s film and young adult novels Literary modernism Notes on Contributors *A Climate Carol and Other CLI-Fi Short Stories* Richard Friedman, 2018-11-20 Climate fiction author Richard Friedman takes the reader on a journey from the bottom of the Atlantic Ocean to the edges of the universe with his collection of short stories A narcissistic east coast billionaire receives a visit from three ghosts in a contemporary spin of a timeless classic Judgment Day asks is humanity worth saving A family takes a tour through the Grand Museum of the Universe in The Docent and the crew of the space shuttle witnesses a nuclear holocaust in The World Burns

Below Enjoy these and more stories of global warming hope redemption and a little humor too Richard is donating part of the proceeds from sales of this book to The Climate Reality Project *The Routledge Handbook of Grassroots Climate Activism* Sabine von Mering, Thomas E. Bell, Alexandre da Silva Faustino, Wendy Steele, Ann Ward, Mariana Arjona Soberón, 2024-12-19

The Routledge Handbook of Grassroots Climate Activism introduces contemporary forms of grassroots climate activism from around the world through the lenses of a variety of academic disciplines methodologies and perspectives Focusing on bottom up case studies it showcases innovative and creative approaches as well as the knowledge of those working towards swift decarbonisation just transitions and climate justice Grassroots climate activism presents a rich body of material to be studied not only by anthropologists sociologists geographers and political scientists but also by scholars in the humanities and the creative arts This timely handbook explores climate activism across six continents and it provides perspectives from climate activists themselves The authors interrogate a range of key questions what forms of mobilisation organisation and practice constitute grassroots climate activism and how have these changed over the last decade What are the boundaries of the climate movement and how does it interact with or differ from other social movements How do activists engage with the moral dimensions of the climate crisis How do grassroots engagements with climate struggles give shape to plural site specific but nonetheless interconnected forms of climate activism What tools do climate activists use to create functioning and effective local national and transnational networks How has climate activism been impacted by the Covid 19 pandemic What is the relationship between critical scholarship and climate activism What methodologies are particularly effective for studying climate activism and why This handbook aims to inspire others to devote more attention to grassroots climate activism It brings together established and up and coming scholars scholar activists and practitioners who present novel cutting edge research and new findings exploring current developments in different parts of the world This book will be of particular interest to students and scholars of climate activism climate solutions climate and society human environmental crises grassroots activism and social movements It will also be of interest to practitioners involved in climate action and to all those who are ready to launch their own grassroots initiatives or support one of the many already underway **The Anthropocene** Seth T. Reno, 2021-11-22 Perhaps no concept has become dominant in so many fields as rapidly as the Anthropocene Meaning The Age of Humans the Anthropocene is the proposed name for our current geological epoch beginning when human activities started to have a noticeable impact on Earth's geology and ecosystems Long embraced by the natural sciences the Anthropocene has now become commonplace in the humanities and social sciences where it has taken firm enough hold to engender a thoroughgoing assessment and critique Why and how has the geological concept of the Anthropocene become important to the humanities What new approaches and insights do the humanities offer What narratives and critiques of the Anthropocene do the humanities produce What does it mean to study literature of the Anthropocene These are the central questions that this collection explores Each chapter takes a decidedly different humanist

approach to the Anthropocene from environmental humanities to queer theory to race illuminating the important contributions of the humanities to the myriad discourses on the Anthropocene This volume is designed to provide concise overviews of particular approaches and texts as well as compelling and original interventions in the study of the Anthropocene Written in an accessible style free from disciplinary specific jargon many chapters focus on well known authors and texts making this collection especially useful to teachers developing a course on the Anthropocene and students undertaking introductory research This collection provides truly innovative arguments regarding how and why the Anthropocene concept is important to literature and the humanities

### **Climate Fiction (Cli-Fi) And Resilience**

Ava Morales,2025-04-02 Climate Fiction Cli Fi and Resilience is a compelling exploration of a genre that dares to imagine the future of our planet Ava Morales takes readers deep into the heart of climate fiction examining how stories centered around environmental upheaval are shaping our cultural response to the climate crisis From dystopian landscapes to hopeful solarpunk visions this book navigates the wide terrain of cli fi its origins themes and evolving role in literature and society Through detailed analysis of key works and authors Morales uncovers how narratives of climate change reflect and influence our fears ethics technologies and ideas of justice Structured with clarity and depth this book covers everything from the psychological impact of climate disasters to the transformative power of human relationships in times of crisis It also delves into the intersections of cli fi with science fiction speculative fiction environmentalism and social justice showing how this genre bridges disciplines and genres to inspire awareness and action A timely and essential read for educators students writers and anyone curious about the role of storytelling in an era of environmental uncertainty Climate Fiction Cli Fi and Resilience offers both critical insight and a call to imagine resilient futures

### **Our Shared Storm**

Andrew Dana Hudson,2022-04-05 Through speculative fiction five interlocking novelettes explore the possible realities of our climate future What is the future of our climate Given that our summers now regularly feature Arctic heat waves and wildfire blood skies polar vortex winters that reach all the way down to Texas and 100 year storms that hit every few months it may seem that catastrophe is a done deal As grim as things are however we still have options Combining fiction and nonfiction and employing speculative tools for scholarly purposes Our Shared Storm explores not just one potential climate future but five possible outcomes dependent upon our actions today Written by speculative fiction writer and sustainability researcher Andrew Dana Hudson Our Shared Storm features five overlapping fictions to employ a futurist technique called scenarios thinking Rather than try to predict how history will unfold picking one out of many unpredictable and contingent branching paths it instead creates a set of futures that represent major trends or counterposed possibilities based on a set of climate modeling scenarios known as the Shared Socioeconomic Pathways SSPs The setting is the year 2054 during the Conference of the Parties global climate negotiations a k a The COP in Buenos Aires Argentina Each story features a common cast of characters but with events unfolding differently for them and human society in each alternate universe These five scenarios

highlight the political economic and cultural possibilities of futures where investments in climate adaptation and mitigation promised today have been successfully completed kicked down the road or abandoned altogether From harrowing to hopeful these stories highlight the choices we must make to stabilize the planet Our Shared Storm is an experiment in deploying practice based research methods to explore the opportunities and challenges of using climate fiction to engage scientific and academic frameworks *Imagining the Future of Climate Change* Shelley Streeby, 2018-01-31 NoDAPL native American and indigenous science fiction and futurisms Climate refugees in the greenhouse world archiving global warming with Octavia E Butler Climate change as a world problem shaping change in the wake of disaster **Science Fiction and Climate**

**Everything Change** Angie Dell, Joey Eschrich, Barakat Akinsiku, Amanda Baldeneaux, J. R. Burgmann, Mason Carr, Scott Dorsch, Sigrid Marianne Gayangos, Kathryn E. Hill, Jules Hogan, Anya Ow, Natasha Seymour, 2021-04-22 A collection of short stories by writers from around the world exploring the climate crisis and how human responses to it will shape the futures we will inhabit Featuring stories in styles ranging from science fiction and fabulism to literary fiction weird fiction and action thriller

all drawn from the 2020 Everything Change Climate Fiction Contest The contest and anthology are presented by the Imagination and Climate Futures Initiative at Arizona State University a partnership of the Center for Science and the Imagination and the Virginia G Piper Center for Creative Writing Climate Fiction and Cultural Analysis Gregers Andersen, 2019-09-25 Climate Fiction and Cultural Analysis argues that the popularity of the term climate fiction has paradoxically exhausted the term's descriptive power and that it has developed into a black box containing all kinds of fictions which depict climatic events and has consequently lost its true significance Aware of the prospect of ecological collapse as well as our apparent inability to avert it we face geophysical changes of drastic proportions that severely challenge our ability to imagine the consequences This book argues that this crisis of imagination can be partly relieved by climate fiction which may help us comprehend the potential impact of the crisis we are facing Strictly assigning climate fiction to fictions that incorporate the climatological paradigm of anthropogenic global warming into their plots this book sets out to salvage the term's speculative quality It argues that climate fiction should be regarded as no less than a vital supplement to climate science because climate fiction makes visible and conceivable future modes of existence within worlds not only deemed likely by science but which are scientifically anticipated Focusing primarily on English and German language fictions Climate Fiction and Cultural Analysis shows how Western climate fiction sketches various affective and cognitive relations to the world in its utilization of a small number of recurring imaginaries or imagination forms This book will be of great interest to students and scholars of ecocriticism the environmental humanities and literary and culture studies more generally
