Ransom, 1978    *Developing Competent Readers and Writers in the Primary Grades* Martha Combs, 1996 This major new entry is a core text for the growing number of reading literacy methods courses which cover grades K through four. Cooter, 2004 For Elementary Reading Methods courses. This comprehensive and balanced look at literacy practice has long been one of the most popular reading methods texts available. The text begins by introducing seven principles for comprehensive reading instruction and then explains the theoretical foundations of teaching reading. Part I builds on those foundations with specific methods in Part II and then in Part III it describes how to create a variety of learning centers and how to plan developmentally appropriate reading curriculum for students in both K-3 and 4-8. Classrooms chapters 12 and 13 provide a continuum of knowledge by describing classroom organization and curriculum for grades 4-6 and 6-8.    Creating Reading Instruction for All Children Thomas G. Gunning, 1996 This book will not tell you how to teach reading. Teaching reading is in large measure a matter of making choices. Should you use basal readers or children's books or both? Should you teach children to read whole words or to sound out words letter by letter or both? Should you have three reading groups or four or no groups? There are no right answers to these questions. The answers depend on your personal philosophy, your interpretation of the research, the level at which you are teaching, the kinds of students you are teaching, community preferences and the nature of your school or school district's reading program.    **Western Journal of Education**, 1929    Illinois Reading Council Journal, 2013    Oregon Teachers' Monthly, 1914    **Teaching Reading Vocabulary** Dale D.
