up to 1914 identifies negative ideas about Islam in novels and plays Some works are iconic some more obscure However the book highlights writers who challenged stereotypes and tended to see Muslims as equally capable of virtue and vice as Christians and others The book deals with the role of the imagination in depicting others and how this serves authors agendas The conclusion brings the book s thesis into dialogue with the debate in the USA today between supporters of multiculturalism and its critics Anyone interested in how stereotypes are formed perpetuated and can be challenged will profit from this book It is aimed at a non specialist readership *Transactions of the Asiatic Society of Japan* ,1906
