Chapter 11 Guided Reading Assignment – not collected

This guide follows the textbook exactly. Before you start any reading, it is critical that you complete the before reading section. Everything you write should be in your OWN WORDS. At the end of your reading, this guide can serve as your notes, which should be a solid summary of the chapter in words that you understand. You may need to look things up while reading, and that's expected! It's part of the process! Sometimes, this reading guide will ask you to review things you learned previously because they relate to the part of the book you're reading. This is a SUPER IMPORTANT part of the reading process, too!
