*Dress It* Deborah Gray, 1999. In this pioneering analysis of the influence exerted by modernization and socioeconomic evolution on patterns of crime, criminologist Louise I. Shelley asserts that society gets the type and level of criminality its conditions produce. Shelley investigates crime patterns in undeveloped, capitalist countries, in developed capitalist countries, and in Socialist countries. Her study is unique in that she alone synthesizes historical accounts of crime and civil disorder with the literature of modern urban studies and contemporary criminality. Through her cross-cultural and historical approach, she demonstrates that contrary to what seems apparent, the global profile of crime is not that of a maniacal pillaging monster. The monster is sane. Crime patterns are predictable. By analyzing the criminal population, recent crime trends, the impact of the criminal justice system, and the predominant values of society, Shelley makes informed predictions concerning the future state of criminality. Shelley addresses six issues. She considers ways in which modernization has affected rates of crime during the initial and later stages of a society's development. She asks how modernization affects the rates of occurrence of fundamental forms of crime. Another question is whether development changes the relationship between crimes against property and crimes of violence against people. Does the speed of the transition from undeveloped to developed society alter observable patterns of behavior? And finally, does modernization change the nature of the criminal population? In this book, Shelley provides both historical and contemporary perspectives from which to view the impact of the developmental process on levels and forms of criminality. She synthesizes the large body of literature aimed at measuring the extent to which socioeconomic development produces similar changes in culturally distinct and geographically separated nations.

**Just Add Water** Lauren Chattman, 1999. COOKERY. Chattman's catchy title doesn't really give a hint of what's inside her appealing new book. The recipes in her first cookbook *Cool Kitchen* (Morrow, 1998) didn't require any cooking, a chance comment from a friend who hoped her next one would be on how to boil water led to this. Here, the only cooking required is boiling, though Chattman's definition is loose enough to include steaming, poaching, and simmering. The recipes are fresh and simple: Cod Fillets in Fennel Broth, Chopped Spiced Zucchini, and Olives, with a few classics in the mix too. Chattman has an engaging style. Recommended for most collections. *Bon Appétit*, 2003. [The Los Angeles Menu Guide](#)

Betty Shapian, Chuck Morrell, 2001 More than 120 restaurants provide representative menus for visitors who want to know where to eat The editors have selected a wide variety of Los Angeles' most dependable and delicious restaurants and present their menus addresses and phone numbers No ratings no opinions just straight information directly from the bill of fare Includes an area map to indicate where the restaurants are located as well as a cuisine index
