Government Gazette Gold Coast, 1954      Europeans as Coastal Brokers in the West and West-Central African Slave Trade (1680-1720) Maria Inês Godinho Guarda, 2025-05-19 The years between 1680 and 1720 saw the intensification of the regional slave trade in West Africa Previous scholarship has focused almost exclusively on Africans and Afro descendants as brokers in the region placing Europeans as Atlantic intermediaries Europeans as Coastal Brokers in the West and West Central African Slave Trade 1680 1720 argues that not only was European mediation in Africa deeply interwoven with endogenous trade networks but also that it was eagerly desired by the powerful potentates of the hinterland as a means of increasing their political and economic power over the region Examining the interconnected interests of coastal authorities and Europeans this book demonstrates that Europeans were the key brokers in the diversification of slave trade routes to the shore

This definitive reference is the first to provide detailed systematic discussion and up-to-date analysis of African oral traditions and folklore.      **Dictionary of African Biography**, 1971 Volumes for 1971 include Full text of the charter of the Organization of African Unity      Empire, Incorporated Philip J. Stern, 2023-05-16 Brilliant, ambitious, and often surprising. A remarkable contribution to the current global debate about Empire and a small masterpiece of research and conceptual reimagining. William Dalrymple, author of *The Anarchy*, *The East India Company*, *Corporate Violence*, and *The Pillage of an Empire*. An award-winning historian places the corporation more than the Crown at the heart of British colonialism, arguing that companies built and governed global empire, raising questions about public and private power that were just as troubling four hundred years ago as they are today. Across four centuries from Ireland to India, the Americas to Africa and Australia, British colonialism was above all the business of corporations. Corporations conceived, promoted, financed, and governed overseas expansion, making claims over territory and peoples while ensuring that British and colonial society were invested quite literally in their ventures. Colonial companies were also relentlessly controversial, frequently in debt and prone to failure. The corporation was well suited to overseas expansion not because it was an inevitable juggernaut but because like empire itself, it was an elusive contradiction: public and private, person and society, subordinate and autonomous, centralized and diffuse, immortal and precarious, national and cosmopolitan, a legal fiction with very real power. Breaking from traditional histories in which corporations take a supporting role by doing the dirty work of sovereign states in exchange for commercial monopolies, Philip Stern argues that corporations took the lead in global expansion and administration. Whether in sixteenth-century Ireland and North America or the Falklands in the early 1980s, corporations were key players. And as *Empire Incorporated* makes clear, venture colonialism did not cease with the end of empire. Its legacies continue to raise questions about corporate power that are just as relevant today as they were 400 years ago. Challenging conventional wisdom about where power is held on a global scale, Stern complicates the supposedly firm distinction between private enterprise and the state, offering a new history of the British Empire as well as a new history of the corporation.      New African Yearbook, 1985
