be a tool of torture or an instrument of inspiration I can humiliate or humor hurt or heal In all situations it my response that decides whether a crisis will be escalated or de escalated and a person humanized or de humanized If we treat people as they are we make them worse if we treat them as they ought to be we help them become capable of becoming Goethe Our thoughts are powerful They create our realities If each morning we wake up we start thinking of how our day can mess up well it really can be quite a hula boo And that is just one manifestation of how thoughts can affect our lives Now imagine what if we choose to be positive on a daily basis How different can our lives be How manageable can stress get if we choose to see the positive side of things or if we know learn how to shift gears Anxiety anger frustration can magically turn to happiness creativity and success if we are willing to try and learn how Top 10 Secrets to a Stress Free Life It is a lifestyle that brings about change a shift in perspective and a way to handle stress this report is not saying that you go shamanic and brouhaha about it what this is trying to explain is that there will always be circumstances in life that is beyond your control whether to be angry or depressed about it but indeed it will create unforeseen realities Here we share some point to ponder Start with one step at a time you cannot turn positive in one day especially if it has become a habit of yours to dwell on the negative The fact that you are reading this book is already a baby step towards a more positive and less stressful life Accept the things that you can t change if an alarm clock doesn t work there is no need to ruin your day What you need is a change of attitude and a spare battery Coffee makers are meant to make coffee not your day learn how not to depend your attitude in a cup of hot mixture Choose other rituals to start your day that you can have more control of like deep breathes or a yoga posture Keep in mind that positive thoughts turn to positive feelings it all starts with how we think then our emotions follow through So it can be said that stress starts in the mind If at the moment a negative thought starts popping its ugly head inside our minds and we crush it immediately then it will have no time to travel down towards our hearts Use visualization or imagination that has positives outlooks believe in the possibility that there are a lot of options to choose from aside from your current situation Act on it Make use of positive words of course you cannot have a positive attitude with a mouth that is full of negative words to say Words ground your thoughts So choose what you spit out carefully Watch your situation change as you practice choosing positive words Calm is a super power these days in a world full of chaos and people rushing to everywhere being stress free means choosing not to participate in the chaos of the modern world Once a negative thought enters your mind swat it like you would to a dengue infested mosquito take control of your life and know what you allow and what you would not allow Always choose to keep your thoughts positive Guard it with all your might *Perennial Questions*

J Krishnamurti,2022-09-09 What is necessary is to examine unemotionally not merely intellectually the intellect doesn t solve any problem it can only invent a lot of ideas theories Nor can emotion dissipate the urgency of the problems that one has to face and resolve What is necessary it seems to me is a mind that is capable of examination To examine there must be freedom from personal views with a mind that is not guided by one s own temperament inclination nor is compelled by circumstances

it seems to me that one must look at them not as an individual but as a human being the human being supercedes the individual human beings have the same common factor of sorrow of joy of unresolved miseries despairs the immense loneliness of modern existence the utter meaninglessness of life as it is lived now throughout the world if we could consider these problems as human beings then perhaps we can intelligently with care resolve our problems An extensive compendium of Krishnamurti s talks and discussions in the USA Europe India New Zealand and South Africa from 1933 to 1967 the Collected Works have been carefully authenticated against existing transcripts and tapes Each volume includes a frontispiece photograph of Krishnamurti with question and subject indexes at the end The content of each volume is not limited to the subject of the title but rather offers a unique view of Krishnamurti s extraordinary teachings in selected years The Collected Works offers the reader the opportunity to explore the early writings and dialogues in their most complete and authentic form

The Irrational Knot Bernard Shaw, 1930 Marriage as the knot in question is exemplified by the union of Marian Lind a lady of the upper class to Edward Conolly always a workman but now a magnate thanks to his invention of an electric motor that makes steam engines obsolete The marriage soon deteriorates primarily because Marian fails to rise above the preconceptions and limitations of her social class and is therefore unable to share her husband's interests Wikisource
