#### Main Features

The JC-22 is a 30W stereo-input/output guitar amp featuring a transparently clean tone that faithfully expresses the true character of your guitar.

- Its unique stereo-input design lets you connect a stereo effect unit to the front panel and enjoy a stereo effect using just a single amp.
- A beautifully dimensional space chorus effect is produced by spatial mixing (allowing the direct sound and effect sound to mix in the air).
- In addition to a 3-band tone-stack EQ, it also provides a bright switch, giving you a rich palette of tone settings.
- With two independent power amps and two custom-designed 6.5-inch speakers, the JC-22 delivers a stereo effect.
- The enclosure is designed for strength and durability, made of hardened fiberboard and equipped with corner protectors.
- If a separately sold footswitch is connected, you can turn chorus and reverb on/off with your foot.

#### Dimensional space chorus

This uses two completely independent amps and speakers; one amp and speaker output the direct sound that is sent from the guitar, while the other amp and speaker output a sound that is subtly pitch-modulated. These two sounds are mixed in the air, creating a softly spacious three-dimensional effect that is warm, deep, and natural-sounding.
