Graphic Signs of Authority in Late Antiquity and the Early Middle Ages, 300-900 Ildar Garipzanov, 2018-04-20 Graphic Signs of Authority in Late Antiquity and the Early Middle Ages presents a cultural history of graphic signs and examines how they were employed to communicate secular and divine authority in the late antique Mediterranean and early medieval Europe Visual materials such as the sign of the cross christograms monograms and other such devices are examined against the backdrop of the cultural religious and socio political transition from the late Graeco Roman world to that of medieval Europe This monograph is a synthetic study of graphic visual evidence from a wide range of material media that have rarely been studied collectively including various mass produced items and unique objects of art architectural monuments and epigraphic inscriptions as well as manuscripts and charters This study promises to provide a timely reference tool for historians art historians archaeologists epigraphists manuscript scholars and numismatists Finishing the Mysteries of Gods and Symbols Seven Star Hand, 2010-09-17 Here is comprehensive proof that the symbolism of many ancient texts canons and concepts is an advanced and extremely ancient spiritual and philosophical technology that predates all extant religions and mystery schools Consequently here is proof beyond disproof that all three so called Faiths of Abraham are purposeful deceptions Accordingly related esoterica mystery schools and the New Age are rife with error caused by undue reliance upon the assertions of these religions and their leaders Throughout this book I present verifiable proof that ancient sages and prophets opposed religion and wisely never trusted religious leaders As comprehensive validation of this they redundantly encoded stunning proof of why throughout pivotal symbolic narratives and related concepts The ancient sages and prophets hid vital secrets from religious leaders throughout the previous several millennia When these decoded details are compared to the history words and deeds of these religions and their leaders they finally prove the truth about many long hidden things These religions have always purposely imposed ignorance based on the deceptive recasting of earlier symbolic concepts and narratives that also expertly encoded the keys to ancient wisdom as redundant proofs of the truth Arrogant religious leaders while hypocritically lecturing others about morality have long overlooked that the ancient sages and prophets were painfully aware of their then current and future misdeeds and deceptions and patiently and expertly prepared for them Cyclopaedia of Biblical, Theological, and Ecclesiastical Literature John McClintock, James Strong, 1879
