*Departure Stories* Elisa Bernick, 2022-10-04 We weren't religious per se. The most frequent mention of God in our house was my mother yelling Goddammit! Elisa Bernick grew up different, i.e. Jewish in the white Christian suburb of New Hope, Minnesota during the 1960s and early 1970s. At the center of her world was her mother, Arlene, who was a foul mouthed red-headed suburban Samson who ultimately shook the walls of their family until it collapsed. Poignant and provocative, *Departure Stories* peers through the broader lens of Minnesota's recent history to reveal an intergenerational journey through trauma that unraveled the Bernick family and many others. Deftly interweaving reporting, archival material, memoir, jokes, scrapbook fragments, personal commentary and one very special Waikiki Meatballs recipe, Bernick explores how the invisible baggage of place and memory, Minnesota's uniquely antisemitic history and the cultural shifts of feminism and changing marital expectations contributed to her family's eventual implosion. *Departure Stories* Betty Crocker Made Matzoh Balls and other lies is a personal exploration of erasure, immigrants and exiles that examines the ways departures from places, families and memory have far-reaching effects.

**Working with Trauma-Exposed Children and Adolescents** Joanna Pozzulo, Craig Bennell, 2018-12-07 Far too often children and youth experience trauma from rare events such as mass shootings, terrorism attacks and school lockdowns to very common occurrences such as bullying, exposure to drugs and alcohol or various mental health issues. They can experience these events both directly and indirectly from surfing the internet, watching television or through their friends. Our children spend a large portion of their day at school interacting with other students, teachers and school personnel where these topics are raised and discussed. This edited volume addresses how our teachers and school personnel can help students deal with these potentially traumatic events to reach the most positive possible outcomes. This collection brings together leading experts including academics and professionals working in the field to provide the most current evidence based practices on how to help students who may have experienced or witnessed trauma. It presents research and advice on how to respond to traumatic events regarding bullying, drugs and alcohol, sexual abuse, mental health, lesbian, gay, bisexual, transgender and queer (LGBTQ), safety, stranger danger, childhood disruptive behaviors, school shootings and lockdowns and terrorism. It also includes a chapter focused on how to implement a school safety program. Schools cannot deal with these issues alone; effective strategies must engage family members and the broader community. Hence the collection includes a chapter on how schools can partner with families and the communities they reside in to bring about positive change. All this work pays close attention to cultural and religious sensitivity, socio-economic variabilities, diversity issues and developmental stages.

*Journey Through Trauma* Gretchen L. Schmelzer, PhD, 2018-02-06 For survivors of PTSD and repeated relational trauma and the people who love them Gretchen Schmelzer watched too many people quit during treatment for trauma recovery. They found it too difficult or too frightening or just decided that for them it was too late. But as a therapist and trauma survivor herself Dr Schmelzer wants us to know that it is never too late to heal from trauma whether it is the suffering caused within an abusive relationship or PTSD resulting from combat. Sometimes what feels like a big setback is actually an unexpected difficult step forward. So she wrote *Journey Through Trauma* specifically for survivors to help them understand the terrain of the healing process and stay on the path. There are three basic principles that every trauma survivor should know: Healing is possible. It requires courage. And it cannot be done alone. Traumas that happen more than once, child abuse, sexual abuse, domestic violence, gang violence, even war are all relational traumas. They happened inside a relationship and therefore must be healed inside a relationship whether that relationship is with a therapist or within a group. *Journey Through Trauma* gives us a map to help guide us through that healing process, see where the hard parts show up and persevere in the process of getting well. We learn the five phases that every survivor must negotiate along the way and come to understand that since the cycle of healing is not linear, circling back around to a previous stage does not mean defeat, it actually means progress as well as facing new challenges. Authoritative and accessible *Journey Through Trauma* provides support for survivors and their loved ones through one of the most challenging but necessary processes of healing that anyone can face.
