Marketing harnesses platforms like Facebook Twitter and Instagram for brand promotion engagement and advertising to reach and influence a broader online audience

**Advanced Social Media Marketing** Tom Funk, 2014-03-01 Hundreds of millions of Americans are using social media SM and already some 70% of businesses have joined them there using Facebook and other SM platforms to connect with their customers and attract new ones So the real question isn't whether to take your business onto social media platforms but how to do it quickly effectively on a budget with smart goals and a road map for success Advanced Social Media Marketing How to Lead Launch and Manage a Successful Social Media Program cuts through the hype and fluff about how social media is changing the world and it gets down to what really matters How you as a manager can best use SM to benefit your business Written by a veteran online marketer and ecommerce professional the book shares practical strategies and tactics to let you launch and scale a successful corporate social media program

Advanced Social Media Marketing How to Lead Launch and Manage a Successful Social Media Program is for the manager who already knows something about social media and wants to roll up his or her sleeves and get down to business In it we simplify tasks that might otherwise be complicated like adopting and tracking key performance metrics developing online ad campaigns or creating Facebook apps like games giveaways and sweepstakes with the capacity to go viral Businesses can harness the unique advantages of this new medium but they need a practical no nonsense guide like this one Otherwise they risk being ignored wasting time and money or even worse damaging their own brand and seeing a well intentioned online program blow up The book is heavy on the how to case studies campaign results and other statistics and interviews with ecommerce managers at businesses large and small It also includes the author's own experiences at Green Mountain Coffee Roasters Wine of the Month Club and others While this book will be accessible enough for someone implementing a social media program for the first time it's ambitious enough to benefit experienced SM hands who are looking for good ideas and techniques to push their online community to the next level of size interactivity and buzz
