on the exam objectives for project managers and others who want to pass the CAPM exam. No prior knowledge of project management is assumed. The chapters and the sections within each chapter are presented in a logical learning sequence. The concepts and topics, both simple and complex, are clearly explained when they appear for the first time. This facilitates step-wise learning, preventing confusion and making this book useful for those who want to get up to speed quickly to pass the CAPM exam even if you are new to the discipline of project management. This book tells the story of project management in a cohesive, concise yet comprehensive fashion. Unlike most CAPM exam books, this book is not just an exam cram book. It is an easy to understand guide that is a valuable reference both before and after the exam. **What You'll Learn:** Understand the body of knowledge required to earn the Certified Associate in Project Management (CAPM) certification. Acquire the knowledge needed to successfully manage projects in any field. **Who This Book Is For:** Project management practitioners preparing for the CAPM exam, entry level project managers and project team members preparing for the CAPM exam, beginners who want to join the field of project management and get up to speed quickly, project managers who need a quick and easy reference to the discipline of project management, instructors and trainers who need a textbook for a course on project management.
