Charitable Words Charitable Words:

Charitable Words Margaret Preston, 2004-10-30 Mismanaged by local authority in the 19th century Dublin lacked sufficient industrial development to provide adequate employment Dublin's charitable workers attempted to improve the lives of the thousands who flocked to the city in search of relief As a means to examining the hidden incentives of charity the author offers a discussion of the language of charity in this setting She notes how contemporary notions of race class and religion influenced how Ireland's philanthropists thought of and related to the poor While much has been written on the perceived racial inferiority of the Celt as compared to the Anglo Saxon Preston suggests that the Irish upper classes in seeking to gain equal footing with the British elite adopted the same language to describe the poor Intense sectarian strife marred Irish charities and undermined the smooth operation of social services Preston offers insight by focusing on two women philanthropists who battled for the souls of Ireland's children She also explores those who remained above the fray such as the Religious Society of Friends in Ireland who offered aid to all regardless of creed Within the charitable records of this group Preston contends that one can see how the Society changed over time and that in Ireland the industrial revolution as well as the 1798 Rebellion contributed to the Society adapting to the mainstream Finally the women of charity helped to establish a modern nursing system for Ireland and this work details their efforts at turning nursing into a respectable profession for women
