Chomsky For Beginners:

Chomsky For Beginners David Cogswell, 2007-08-21 Noam Chomsky has written some 30 books he is one of the most quoted authors on Earth The New York Times calls him arguably the most important intellectual alive yet most people have no idea who he is or what he is about Chomsky For Beginners tells you what he is about Chomsky is known for his work in two distinct areas Linguistics and Gadfly the word applied to Socrates comes closest to the constant social irritant that Chomsky has become It is Chomsky's work as Political Gadfly and Media Critic that has given passion and hope to the general public and alienated the Major Media which is of course why you don't know more about him Chomsky's message is very simple Huge corporations run our country the world both political parties and Major Media You suspected it Chomsky proves it If enough people open their minds to what he has to say the whole gingerbread fantasy we've been fed about America might turn into a real democracy What is so special about Chomsky For Beginners The few existing intros to Chomsky cover either Chomsky the Linguist or Chomsky the Political Gadfly Chomsky For Beginners covers both plus an exclusive interview with the maverick genius The clarity of David Cogswell's text and the wit of Paul Gordon's illustrations make Chomsky as easy to understand as the genius next door Words and art are combined to clarify but not oversimplify the work and to humanize the man who may very well be what one savvy interviewer called him the smartest man on Earth
