## **Children's Rights: New Issues, New Themes, New Perspectives**

Michael Freeman, 2018-02-27 This collection of essays by a variety of scholars compiled to celebrate the silver anniversary of The International Journal of Children s Rights builds on work already in the literature to reveal where we are now at and how the law concerned with children is reacting to new developments New or relatively new subject matter is explored such as film classification intersex genital mutilation the right to development Rights within the context of sport are given an airing We are offered new perspectives on discipline on the significance of rights flowing downhill on the so called General Principles The uses to which the CRC is put in legal reasoning in some legal systems is critically examined Though not intended as an audit the collection offers a fascinating image of where the field of children s right is at now the progress that has been made and what issues will require work in the future

## **The Future of Children's Rights** Michael Freeman, 2015-01-08 This volume is in part

intended to celebrate the 25th anniversary of the United Nations Convention on the Rights of the Child We are now a generation on from its formulation and as this varied collection of articles by leading thinkers in the field reflects children s rights have come a long way Yet the aim of this volume is not to look back but to take stock and look forward It explores subjects as diverse as socio economic rights corporal punishment language and scientific progress as they relate to children and their rights and offers new insights and new ideas Edited by one of the most respected and leading scholars in the field The Future of Children s Rights constitutes a stimulating and useful resource for academics and practitioners alike

*Children's Rights* Michael Freeman, 2011      **Children at the Borders** Jonathan Josefsson, 2016-12-15 In the wake of a steady flow of child migrants attempting to cross borders and states efforts to restrict immigration various public controversies have arisen about the rights of asylum seeking children The moral gap between the outcome of democratically enacted laws and the aim of controlling immigration on the one hand and public calls to protect the universal rights of asylum seeking children on the other have created a political challenge for Western democracies This thesis sets out to examine two particular settings in which norms about the rights of asylum seeking children and immigration control have been established and contested over the years the Swedish Migration Court of Appeal and Sweden's largest morning paper Dagens Nyheter It combines empirically oriented analysis with theoretical enquiry and it brings the issue of the rights of asylum seeking children into dialogue with the contemporary political philosophical debate about membership rights and borders I k lvattnet av en stadig str m av barn som migrerar ver statsgr nser har medial rapportering protester och offentliga diskussioner aktualiserat fr gor om asyls kande barns r ttigheter Det moraliska glappet mellan till mpningen av demokratiskt stiftade lagar i syfte att reglera invandringen ena sidan och offentliga krav p att skydda universella r ttigheter f r asyls kande barn andra sidan har v xt fram som en samtida utmaning f r demokratiska stater att hantera I denna avhandling unders ks tv specifika arenor d r normer om asyls kande barns r ttigheter och immigrationskontroll har etablerats och ifr gasatts under de senaste ren den svenska Migrations verdomstolen och Sveriges st rsta morgontidning Dagens Nyheter Avhandlingen kombinerar empiriska analyser med teoretiska unders kningar om asyls kande barns r ttigheter i dialog med en samtida politisk filosofisk diskussion om medlemskap r ttigheter och gr nser      International Perspectives and Empirical Findings on Child Participation Tali Gal, Benedetta Duramy, 2015-03-20 The 1989 UN Convention on the Rights of the Child has inspired advocates and policy makers across the globe injecting children's rights terminology into various public and private arenas Children's right to participate in decision making processes affecting their lives is the acme of the Convention and its central contribution to the children's rights discourse At the same time the participation right presents enormous challenges in its implementation Laws regulations and mechanisms addressing children's right to participate in decision making processes affecting their lives have been established in many jurisdictions across the globe Yet these worldwide developments have only rarely been accompanied with empirical investigations The effectiveness of various policies in achieving meaningful participation for children of different ages cultures and circumstances have remained largely unproven empirically Therefore with the growing awareness of the importance of evidence based policies it becomes clear that without empirical investigations on the implementation of children's right to participation it is difficult to promote their effective inclusion in decision making This book provides a much needed first broad portrayal of how child participation is implemented in practice today Bringing together 19 chapters written by prominent authors from the United States Canada the United Kingdom Ireland New Zealand Australia and Israel the book includes descriptions of programs that engage children and youth in

decision making processes as well as insightful findings regarding what children their families and professionals think about these programs Beyond their contribution to the empirical evidence on ways children engage in decision making processes the volume s chapters contribute to the theoretical development of the meaning of participation citizenship inclusiveness and relational rights in regards to children and youth There is no matching to the book s scope both in terms of its breadth of subjects and the diversity of jurisdictions it covers The book s chapters include experiences of child participation in special education child protection juvenile justice restorative justice family disputes research and policy making

**Children's Rights** Amruta K. Deshmukh,2005 *Children's Rights* Jude L. Fernando,2001-05 The ratification of the Convention on the Rights of the Child CRC by a majority of the International Labor Organization s member states technically affirms that children are born with fundamental freedoms and the inherent rights of all human beings This should mark the 21st century as a century of hope for those children whose fundamental rights are violated across the world There is however widespread concern that in spite of some successes in enlisting broad based societal commitments to safeguard children s rights there exists neither a universal consensus on the meaning and very concept of children s rights nor sufficient reasons for us to be content with the current status of children s rights worldwide The widening of the gap between expectations and achievements in the area of human rights raises a fundamental issue how comfortably does our commitment to children s rights fit with our convictions about social justice Violation of children s rights multiplies at an alarming rate pointing to the wholesale failure of policies programs interventions and conventions designed to curb them On the positive side however the present trends in the debate and advocacy around children s rights have great potential not only for improving the status of children Child centered demands for distributive justice have a much greater potential in terms of the possibility of building an intercultural consensus as compared to similar demands by other social groups The 11 articles in this volume of The Annals seek to address some of the dominant themes in the current debate over children s rights in order to facilitate new paradigms and directions that could be effective in responding to this most important issue This issue of The Annals deals with the various topics crucial in the discussion of children s rights around the world

**Education** David Elkind,1991 The introductory chapter in this book provides a historical overview of the family and schools in the premodern modern and postmodern eras in the United States The introduction also reviews the contributions of several important figures in early childhood education and suggests that the battle in early childhood education in the postmodern world will be between the need to be economically competitive and humanitarian needs The other 24 chapters in the book address this issue and reiterate the underlying theme that the social need for adequate funding training and staffing for early childhood education must be given high priority by government and industry Specific topics include 1 physical and health education 2 counseling 3 teacher education 4 family education and family support 5 school readiness 6 literacy education 7 art education 8 the national education goals 9 migrant children 10 child care for black children 11 mathematics learning and 12 science education Twenty three of the articles were written by representatives of various organizations concerned about early childhood education Bibliographies or reference lists are appended to individual chapters BC
