Okinawan Karate: Teachers, Styles & Secret Techniques, Revised & Expanded Second Edition: Master Version Mark D Bishop, 2019-02-20

Progression is a positive trait as long as one keeps in touch with the past and has a staple backdrop to focus or fall back on Although the Revised Expanded Third Edition contains all the wording and photographs that are reproduced in both the first edition as well as this Revised and Expanded Second Edition it comparatively represents a step into what was for these latter two books the future The year 2019 in which I am writing this foreword represents respectively 30 years and 20 years into the future since the publication of these two books so I think this faithful reproduction of the Master Version by Q I Publications is well timed For some readers it might bring about nostalgia for others it might be an eye opener into a world that is not always truthfully represented due to commercial or other reasons For the teachers who I interviewed and have been embodied herein I hope this Master Version will remain a testament into how they wished to be represented for time immemorial

Henning's Scholarly Works on

Chinese Combative Traditions Stanley Henning, 2018-03-09 What we think are Asian martial arts is usually derived by Hollywood images fanciful novels and a superficial idea of what role combatives played in the long histories of Far Eastern countries. There are only a few people in the world who can truly be called scholars in this field. A leading figure in the USA for the study of Chinese martial traditions is Stanley Henning. This special anthology is a collection of Henning's superb articles that were previously published in the *Journal of Asian Martial Arts* including one he co-wrote with Marnix Wells a leading British scholar on Chinese martial traditions. Henning has little patience for those who miss the original essence of practical martial arts and who fell under the enticement of flowery boxing. True combative arts are not play although they influenced other practices. In the fifteen chapters included here you'll find a strong historic base for what the martial arts meant in old China and how they changed over the centuries. In order to understand martial arts as they were evolving over dynastic periods it is necessary to look at the political and social settings technology and even geography and linguistics. When it comes to research Henning presents clear facts and accurate conclusions. At the same time he wisely states what is open to debate and requires further research. Why is the chapter on Korean martial arts included in this anthology? Because the Chinese had tremendous influence on their neighbors including Japan and Korea. Thanks to a few scholars like Henning and Wells we are getting a clearer picture of just how much Chinese martial arts have influenced the fighting arts in other countries. Leading scholars are having an impact on how Asian martial traditions are perceived understood and practiced. Henning introduces the new wave of Chinese scholars who have presented their findings in various articles and books opening new vistas for all interested in this growing field of study at least for those who ready Chinese. Fortunately Henning's work is in English. This anthology is not an easy read for those unfamiliar with Chinese history the various dynasties the terminology and variety of martial systems. However it will no doubt benefit the serious scholar of Chinese martial arts and hopefully others will likewise benefit by patiently reading each chapter to broaden their understanding of the rich martial culture of China.

Pa-Kua Robert W. Smith, Allen Pittman, 1990 Unlike most martial arts Chinese internal soft style boxing does not depend upon muscular strength. The secret behind its power lies in the cultivation and practical application of internal energy *chi*. There are basically three soft style martial arts *Tai chi* already well known worldwide and *Hsing i* and *Pa kua* relative newcomers to the West. Although they are essentially not fighting arts but living arts they are devastating as systems of self defense.
