Over the past three decades China has transformed itself from a stagnant inward centrally planned economy into an animated outward looking decentralized market economy Its rapid growth and trade surpluses have caused uneasiness in Western governments which perceive this growth to be a result of China s rejection of international protocols that protect intellectual property and its widespread theft and replication of Western technology and products China s major trading partners particularly the United States persistently criticize China for delivering at best half hearted enforcement of intellectual property rights IPR norms Despite these criticisms Zhenqing Zhang argues that China does respect international intellectual property rights but only in certain cases In [Intellectual Property Rights in China](#) Zhang addresses the variation in the effectiveness of China s IPR policy and explains the mechanisms for the uneven compliance with global IPR norms Covering the areas of patent copyright and trademark Zhang chronicles how Chinese IPR policy has evolved within the

legacy of a planned economy and an immature market mechanism In this environment compliance with IPR norms is the result of balancing two factors the need for short term economic gains that depend on violating others IPR and the aspirations for long term sustained growth that requires respecting others IPR In case studies grounded in theoretical analysis as well as interviews and fieldwork Zhang demonstrates how advocates for IPR typically cutting edge Chinese companies and foreign IPR holders can be strong enough to persuade government officials to comply with IPR norms to achieve the country s long term economic development goals Conversely he reveals the ways in which local governments protect IPR infringers because of their own political interests in raising tax revenues and creating jobs **Intellectual Property and TRIPS Compliance in China** Paul Torremans,Hailing Shan,Johan Erauw,2007-01-01 the editors of this book have done an excellent job and both academics and practitioners will find this book worthwhile and enjoyable Wei Shi

Communications Law China s accession to the WTO and TRIPS heralded massive changes in Chinese intellectual property IP law This book asks whether all aspects of Chinese law and practice are now TRIPs compliant The study offers both Chinese and European perspectives Examining substantive IP law in detail the contributors conclude that the changes have been far reaching and TRIPS compliance has been achieved They also argue that China s IP laws are now addressing the new challenges of the digital revolution and the global economy Of equal importance is enforcement and in this respect the book reveals that change started later and that further work remains to be done The book highlights the important efforts that are underway and the undeniable progress that is being made All these issues are placed in an international context where the development agenda is becoming more important and where the discussion on the renegotiation of the TRIPS has started The contributors include leading members of the Chinese judiciary as well as academics politicians and practitioners from China Europe and Canada The approach taken to the subject combines academic rigorously with political realism and the practical needs of operating an effective law enforcement and judicial system in a vast and rapidly developing country This book will be warmly welcomed by IP academics and researchers policy makers R D departments around the world and investors in China **Intellectual Property Law in Asia** Christopher Heath,2002-12-16 **Chinese Foreign Investment**
