Capri Sanzio is back giving a true crime tour her guests won't soon forget. After all, a tour guide who specializes in serial killers knows better than most that San Francisco is a city with killer charm. Capri Sanzio knows that when you give serial killer walking tours for a living, unexpected situations are more common than San Francisco's famous fog. So when one of her guests claims to see a woman being attacked during a tour, Capri remains unphased. The police search the apartment in question and find no evidence of anything amiss, so they chalk it up to a false report from a true crime fanatic looking to be a part of a case. And Capri thinks they might be right since lately her tours have been attracting even more obsessives than usual. As it turns out, finding the actual serial killer who committed the Overkill Bill murders didn't stop the constant questions about her grandfather's supposed crimes; it only intensified them. But Capri would never forgive herself if someone is in trouble and she walks away. Plus, something about the whole situation has every one of Capri's investigative journalist instincts going haywire: why would someone lie about seeing an attack? So Capri starts to dig, and when her questions lead to a body, she finds herself at the center of another murder investigation.

[The Atlas of California](#) Richard A. Walker, Suresh K. Lodha, 2016-05-04 California is at a crossroads. For decades a global leader inspiring the hopes and dreams of millions, the state has recently faced double-digit unemployment, multi-billion dollar budget deficits, and the loss of trillions in home values. This atlas brings together the latest research and statistics in a graphic form that gives shape and meaning to these numbers. It shows a new California in the making as it maps the economic, social, and political trends of a state struggling to maintain its leadership and to continue to offer its citizens the promise of prosperity. Among the world's largest economies, California is the nation's agricultural powerhouse, high-tech crucible, and leader in renewable energy. The state is the most populous and most diverse state in the continental U.S. Yet its infrastructure is coming under increasing pressure. Water supply systems are strained, the legendary highways are over capacity, and the celebrated system of public schooling is unable to offer affordable quality education at all levels. Health and welfare services, particularly for the poor, needy, disabled, and seniors, are at great risk. This indispensable resource gives readers the tools they need to understand the transformation as California attempts to forge a new identity in the midst of unprecedented challenges.
