Chapters include basics of radiation physics, biological bases of radiation protection, planning and design of nuclear medicine facilities, cyclotron and high dose therapy facilities, radiation safety considerations in nuclear medicine cyclotron while preparing radiopharmaceuticals. It also includes the working mechanism of radiation detectors, quality assurance of positron emission tomography (PET) and gamma camera, including single photon emission computed tomography (SPECT), emergency preparedness plan, nuclear medicine and CT dosimetry, transport regulations, the role of national regulatory authorities and radioactive waste management. The last chapter provides probable model questions asked in the radiological safety officer certification examination and includes 250 multiple choice questions (MCQs), 100 true or false, 60 fill in the blanks, and 40 match the following questions. The book is written in a simple language for a better understanding of the occupational workers of any grade. **Anti-corrosion Manual**, 1959    **Proceedings** American Petroleum Institute. Division of Refining, 1972    Visions of Power in Cuba Lillian Guerra, 2012-10-15 In the tumultuous first decade of the Cuban Revolution, Fidel Castro and other leaders saturated the media with altruistic images of themselves in a campaign to win the hearts of Cuba's six million citizens. In *Visions of Power in Cuba*, Lillian Guerra argues that these visual representations explained rapidly occurring events and encouraged radical change and mutual self-sacrifice. Mass rallies and labor mobilizations of unprecedented scale produced tangible evidence of what Fidel Castro called unanimous support for a revolution whose moral power defied U.S. control. Yet participation in state-orchestrated spectacles quickly became a requirement for political inclusion in a new Cuba that policed most forms of dissent. Devoted revolutionaries who resisted disastrous economic policies exposed post-1959 racism and challenged gender norms set by Cuba's one-party state increasingly found themselves marginalized, silenced, or jailed. Using previously unexplored sources, Guerra focuses on the lived experiences of citizens, including peasants, intellectuals, former prostitutes, black activists, and filmmakers, as they struggled to author their own scripts of revolution by resisting repression, defying state-imposed boundaries, and working for anti-imperial redemption in a truly free Cuba.    **Rolling Lift Bridges in**
