Pollack,1981 *Chinese Foreign Policy Under Xi* Tiang Boon Hoo,2017-02-17 There has been a discernable calibration of Chinese foreign policy since the ascension of Xi Jinping to the top leadership positions in China The operative term here is adjustment rather than renovation because there has not been a fundamental transformation of Chinese foreign policy or setting up of a new kitchen in foreign affairs Several continuities in Chinese diplomacy are still evident The People s Republic of China PRC has not wavered from its overarching strategy of rising through peaceful development The PRC is still an active participant and leader in or shaper of global and regional regimes even as it continues to push for reforms of the extant order towards an arrangement which it thinks will be less unjust and more equitable It seeks to better link up with the international track perhaps even more so under Xi s stewardship Yet amidst these continuities it is clear that there have been some profound shifts in China s foreign policy From the enunciation of strategic slogans such as the Asian security concept and major country diplomacy with Chinese characteristics the creation of the China led and initiated Asian Infrastructure Investment Bank the pursuit of Xi s signature foreign policy initiative the One Belt One Road to a purportedly more assertive and resolute defense of China s maritime territorial interests in East Asia examples of these foreign policy calibrations both

patent and subtle abound In short this has not been a complete metamorphosis but there are real changes with important repercussions for China and the international system The burning questions then are What Where How and Why What are these key foreign policy adjustments Where and how have these occurred in Chinese diplomacy And what are the reasons or drivers that inform these changes This book seeks to capture these changes Featuring contributions from academics think tank intellectuals and policy practitioners all engaged in the compelling business of China watching the book aims to shed more light on the calibrations that have animated China s diplomacy under Xi a leader who by most accounts is considered the most powerful Chinese numero uno since Deng Xiaoping

and cultural forces that transform human collectivities Instability and related concomitant issues such as disease energy security and terrorism challenge the reconstructive role of internal and external factors in foreign policy decision making The implications of the global forces on the divided world of gated communities urban and village ghettos national borders and cultural decay could be far reaching if leaders fail to redesign and implement effective governance models
