Sociology of Knowledge (RLE Social Theory) Gunter Werner Remmling,2022-03-23 The sociology of knowledge is an area of social scientific investigation with major emphasis on the relations between social life and intellectual activity It is now an area central to most graduate and undergraduate courses in sociology The present collection of readings explains the origins systematic development present state and possible future direction of the discipline The major statements in the field were developed early in the twentieth century by Durkheim Scheler and Mannheim but the sociology of knowledge continues to engage the theoretical and empirical interests of contemporary sociologists who desire to penetrate the surface level of social existence This book with its carefully selected contributions and an introduction which relates the selections to the developmental pattern of the discipline provides guidance and insight for the reader concerned with the topical issues raised by sociologists of knowledge

Food, Senses and the City Ferne Edwards, Roos Gerritsen, Grit Wesser, 2021-03-23 This work explores diverse cultural understandings of food practices in cities through the senses drawing on case studies in the Americas Asia Australia and Europe. The volume includes the senses within the popular field of urban food studies to explore new understandings of how people live in cities and how we can understand cities through food. It reveals how the senses can provide unique insight into how the city and its dwellers are being reshaped and understood. Recognising cities as diverse and dynamic places the book provides a wide range of case studies from food production to preparation and mediatisation through to consumption. These relationships are interrogated through themes of belonging and homemaking to discuss how food memory and materiality connect and disrupt past present and future imaginaries. As cities become larger busier and more crowded this volume contributes to actual and potential ways that the senses can generate new understandings of how people live together in cities. This book will be of great interest to students and scholars of critical food studies urban studies and socio cultural anthropology.
