Cheap Bastard's™ Guide to Chicago Nadia Oehlsen, 2009-09-15 Longtime Chicagoan Nadia Oehlsen reveals her secrets for living the good life cheaply in the Windy City including how to enjoy free concerts movies comedy acts and magic shows where to get free food and wine including Sunday brunch on the house information on free days at museums and the Shedd Aquarium the lowdown on Chicago's TV tapings and live shows and much more **Media Law and Ethics**

Roy L. Moore, Michael D. Murray, Kyu Ho Youm, 2021-09-30 This comprehensive textbook provides a thoughtful introduction to both the legal and ethical considerations relevant to students pursuing careers in communication and media The fully revised sixth edition continues to integrate fundamental legal and ethical principles with cases and examples from both landmark moments and recent history It expands upon the previous edition's exploration of international and non U S law introduces a new chapter on digital and social media and incorporates discussion of new technologies and media throughout its coverage of core topics such as privacy intellectual property defamation and commercial speech Coverage of contemporary court cases and congressional hearings brings readers up to date on the evolving discussion surrounding

Facebook Twitter and today's other major online players This hybrid textbook is ideal for undergraduate and graduate courses in media and communication that combine law and ethics Online resources including study guides and sample teaching materials are available at www.routledge.com/9780367748562 *The Lilaguide: Baby-Friendly Chicago Area* Elysa Marco, 2005-09 **Chicago**, 2008 **Best Career and Education Web Sites** Rachel Singer Gordon, Anne Wolfinger, 2004 The Internet is loaded with information to help you find a job choose a school or learn about careers That's great if you know how to find what you're looking for But if you don't it's easy to get bogged down in information overload That's where this book comes in In this all new fourth edition we've researched and reviewed the many thousands of career job search and education sites on the Web and include only the very best places for solid information and advice No more wading through site after site this book has already done all of the hard work for you Book jacket Cycle of Segregation Maria Krysan, Kyle Crowder, 2017-12-13 The Fair Housing Act of 1968 outlawed housing discrimination by race and provided an important tool for dismantling legal segregation But almost fifty years later residential segregation remains virtually unchanged in many metropolitan areas particularly where large groups of racial and ethnic minorities live Why does segregation persist at such high rates and what makes it so difficult to combat In Cycle of Segregation sociologists Maria Krysan and Kyle Crowder examine how everyday social processes shape residential stratification Past neighborhood experiences social networks and daily activities all affect the mobility patterns of different racial groups in ways that have cemented segregation as a self-perpetuating cycle in the twenty first century Through original analyses of national level surveys and in depth interviews with residents of Chicago Krysan and Crowder find that residential stratification is reinforced through the biases and blind spots that individuals exhibit in their searches for housing People rely heavily on information from friends family and coworkers when choosing where to live Because these social networks tend to be racially homogenous people are likely to receive information primarily from members of their own racial group and move to neighborhoods that are also dominated by their group Similarly home seekers who report wanting to stay close to family members can end up in segregated destinations because their relatives live in those neighborhoods The authors suggest that even absent of family ties people gravitate toward neighborhoods that are familiar to them through their past experiences including where they have previously lived and where they work shop and spend time Because historical segregation has shaped so many of these experiences even these seemingly race neutral decisions help reinforce the cycle of residential stratification As a result segregation has declined much more slowly than many social scientists have expected To overcome this cycle Krysan and Crowder advocate multi level policy solutions that pair inclusionary zoning and affordable housing with education and public relations campaigns that emphasize neighborhood diversity and high opportunity areas They argue that together such programs can expand the number of destinations available to low income residents and help offset the negative images many people hold about certain neighborhoods or help introduce them to places they had never considered Cycle of Segregation demonstrates

why a nuanced understanding of everyday social processes is critical for interrupting entrenched patterns of residential segregation
