**Crazy Enough** Storm Large,2012-01-10 A helluva compelling story Elle Storm Large is a force of nature Her ballsy heartbreaking hysterical tour de force of a memoir is not to be missed Chelsea Cain New York Times bestselling author Edgy gritty and fearless The Portland Observer Yes Storm Large is her real name though she s been called many things As a performer the majority of descriptions have led with Amazon powerhouse a six foot Vargas pinup come to life Playboy called her a punk goddess You d never know she used to be called Little S the mini me to her beautiful and troubled mother Suzi Little S spent most of her childhood visiting her mother in mental institutions and psych wards Suzi s diagnosis changed with almost every doctor s visit ranging from schizophrenia to bipolar disorder to multiple personality disorder to depression One day nine year old Little S jokingly asked one of her mother s doctors I m not going to be crazy like that right To which he replied Well yes It s hereditary You absolutely will end up like your mother But not until your twenties Storm s story of growing up with a mental time bomb hanging over her veers from frightening to inspiring sometimes all in one sentence But her strength charisma and raw musical talent gave her the will to overcome it all Crazy Enough is a memoir that reads like an in your face mashup of Augusten Burroughs and Chelsea Handler Shelf Awareness and a love song to the twisted flawed parts in all of us

Life Experiences of Evan Evan Lang,2020-11-15 The writings in this book come from real pain betrayal lost love being left

alone and being mistreated Instead of picking up a gun and hurting other people and or myself I grabbed a pen and some paper and started writing no matter what I wrote about If it got to me and made me feel some kind of way or made me think I wrote it down I would stay up all night writing I just wrote and wrote and never stopped writing I d never thought about the response I would get from my writings good or bad and never thought about putting them in a book I remember the first poem I wrote was Birds Flying Free I was in a bad relationship and wanted to get out of it not because of fights or anything but because she loved the clubs night life and her friends more than she loved me I couldn t be the father I wanted to be the kind of father I knew and know that I could be so I wrote about it I thank God for my gift because if I didn t have writing to calm me down I probably would be in prison dead or on the run     **The Chadar of Secrets** Harsh Singhal,2019-01-30

MAGIC The shortest and the most complete answer When you enter a magic show you only know about the name of the trick which you are about to see and nothing else right And with that one name being enough already for you you start making your own stories to tell yourself how the trick will be performed or how will the magician do it according to your own ideas and your own understanding Later when the magician performs his tricks and his magic doesn t match with your expected stories you feel surprised and something unexpected has happened And ta da But that s not the end Now the magician waits for something more magical and that is the sound of your claps and the look on your faces And that s when it ends Does anything up above sounds similar That s how you and your life work You know one thing and you start making up stories according to your own beliefs and your own ideas of what you know You are already prepared And later life changes your already prepared game and it surprises you and something unexpected has happened Again This book will not teach you any lessons because that s your life s job but it will show you how life tries to teach you those lessons And once you have read this book till the end you will know that you are a magician yourself and perform magic tricks almost every day     The Nasdijj Trilogy Mary Scriver,2014-02-23 This is a reader s companion to a controversial trilogy of books by Tim Barrus published under the nom de plume of Nasdijj Discussion is limited to the actual writing rather than comment on the writer This man is a poet and social activist with a lifelong dedication to the welfare of children especially boys at risk     New York Court of Appeals. **Why Math Must Replace Science** Mike Hockney,2014-11-03 The greatest catastrophe in intellectual history was to regard physics as real and mathematics as an unreal abstraction In fact mathematics is noumenal true reality and physics is phenomenal illusory reality Mathematics tells you what things are in themselves and physics tells you how they appear to us Mathematics is the perfect ground of existence defined by the God Equation It's the source of causation determinism and objective reality all of the things now formally denied by physics which claims that observable reality is indeterministically born of unreal potentiality wavefunctions It's time to replace the scientific method with the mathematical method It's time to recognize that true reality is intelligible not sensible noumenal not phenomenal unobservable not observable metaphysical not physical hidden not manifest rationalist not empiricist necessary not contingent Don't follow the crowd Think for yourself
