

A movie poster for 'Alien Invasion'. The top half features a large, dark, metallic alien head with a menacing, ribbed texture, its mouth open as if screaming or roaring. Below the head, a man with long, light-colored hair is shown in a state of intense distress, his face contorted in a scream with his eyes closed and hands clutching his head. The background is a misty, forested landscape. The text 'WE DO NOT COME IN PEACE' is in the top right, and 'ALIEN INVASION' is at the bottom in large, glowing green letters.

Stephen Webb,2017-05-03 It has been argued that science fiction SF gives a kind of weather forecast not the telling of a fortune but rather the rough feeling of what the future might be like The intention in this book is to consider some of these bygone forecasts made by SF and to use this as a prism through which to view current developments in science and technology In each of the ten main chapters dealing in turn with antigravity space travel aliens time travel the nature of reality invisibility robots means of transportation augmentation of the human body and last but not least mad scientists common assumptions once made by the SF community about how the future would turn out are compared with our modern understanding of various scientific phenomena and in some cases with the industrial scaling of computational and technological breakthroughs A further intention is to explain how the predictions and expectations of SF were rooted in the scientific orthodoxy of their day and use this to explore how our scientific understanding of various topics has developed over time as well as to demonstrate how the ideas popularized in SF subsequently influenced working scientists Since gaining a BSc in physics from the University of Bristol and a PhD in theoretical physics from the University of Manchester Stephen Webb has worked in a variety of universities in the UK He is a regular contributor to the Yearbook of Astronomy series and has published an undergraduate textbook on distance determination in astronomy and cosmology as well as several popular science books *Defenders* Will McIntosh,2014-05-13 A new epic of alien invasion and human resistance by Hugo Award

winning author Will McIntosh The invaders came to claim earth as their own overwhelming us with superior weapons and the ability to read our minds like open books Our only chance for survival was to engineer a new race of perfect soldiers to combat them Seventeen feet tall knowing and loving nothing but war their minds closed to the aliens But these saviors could never be our servants And what is done cannot be undone The Oxford Companion to Children's Literature Daniel
