[Masculinities in Post-Millennial Popular Romance](#) Eirini Arvanitaki, 2022-05-12 This book focuses on the projection of the hero's masculinity in a selection of post-millennial popular romance narratives and attempts to discover if and to what extent this projection reinforces or challenges patriarchal ideas about gender. In the majority of these narratives the hero is often presented as a hegemonic alpha male. However, hegemonic masculinity is not a fixed concept. Rather, it is subject to continuous change which allows for the emergence of various dominant masculinities. Under a poststructuralist lens and through a close textual analysis approach and a gender reading of romance narratives, the book suggests that to a certain extent the romance hero could be described as a platform onto which different forms of dominant masculinity are displayed and highlights that these masculinities do not necessarily clash, depend on or function as a prerequisite for each other.

**Adding Value to Libraries, Archives, and Museums** Joseph R. Matthews, 2016-03-28 This book explains the concept of adding value and shows staff at libraries and other organizations why they need to take steps now to ensure they are adding new value to their communities whether it be a local town or neighborhood a faculty and student body or a school. Value is at the core of every organization's purpose. Without value, organizations die. Libraries as well as museums, archives and galleries have traditionally added value to their communities through their collections and services but yesterday's collections and services are no longer enough. In order to remain sustainable today's libraries, archives, museums and galleries must explore new ways to add value that resonate in the lives of their customers. This unique book explains how addressing the 5 C's of adding value content, context, connection, collaboration, and community enables organizations to find new ways to invigorate their services, better serve their communities and thrive today and tomorrow. It addresses adding value in the context of other key topics such as crowdsourcing, embedded librarianship, makerspaces, self-publishing and repurposing spaces. Filled with charts, tables, screenshots and other visual representation, this is a useful and provocative guide that anyone interested in vesting in the successful future of libraries, archives and museums needs to read.
