Global Trend Witchcraft Academy:

African Witchcraft and Global Asylum-Seeking Katherine Luongo,2023-04-17 This book analyzes how over the last two decades immigration regimes in three primary refugee receiving states in the Global North Canada Australia and the United Kingdom have engaged with allegations about witchcraft driven violence made by asylum seekers coming from Anglophone countries across the African continent The work intervenes at the nexus of anthropological historical legal developmental and human rights literatures to offer fresh insights into extrajudicial violence and global migration Taking witchcraft based asylum cases as its focal point it argues that the recent dramatic expansion in claims to refugee protection under the particular social group category of the 1951 UN Refugee Convention reflects immigration authorities increasing willingness to consider how legally recognizable persecution can derive from cultural practices and beliefs Reflecting critically on such cases it advances understandings of how witchcraft beliefs and practices have persisted as significant engines of violence in the contemporary world It sheds light both on the limits of legal pluralism and cultural relativism in asylum adjudication and on how social scientific expertise contributes not simply to the flow of ideas but also to the channelling of people across national cultural and epistemological boundaries The book will be essential reading for students and researchers in legal anthropology African studies human rights transnational history migration and refugee law and policy and the history and anthropology of witchcraft

Managing People in Changing Organizations Graeme Martin,2024-09-03 Managing People in Changing Organizations addresses the contemporary problems faced by managers in dealing with people organizations and change in a theoretically informed and practical way It does so by drawing on classic studies in management up to date research including the author's own case studies and reflective exercises This textbook approaches people management and organizational development from the perspective of practising and aspiring managers making it a valuable alternative to existing texts on organizational behaviour change management and human resource management This third edition incorporates new research and recent changes in technology including artificial intelligence work and job design and additional insights into innovation corporate governance and sustainability Built around a chapter framework that connects different themes to managerial action and practices this textbook covers a wide range of topics including managing at the individual group and organizational levels culture change managing internationally reputation management managing creativity and innovation and corporate governance corporate social responsibility and sustainability There is an increased international flavour reflected in the range of contemporary case studies and literature used throughout which explore business and management problems in the private and public sectors The content also reflects the

author's recent experience of consulting and managing at board level. This text will be relevant to practising and aspiring managers studying leadership, people management, organizational behaviour and development and change management on courses at later stage undergraduate, masters, doctoral and executive education levels. **Making Sense of "God"** Norman Solomon, 2023-05-04. All over the world people talk about God and argue endlessly about what God said and what if anything we should do about it. Do they know what are they talking about? Do they ever seriously consider what it might look like or feel like if God actually spoke to you? How could you tell if someone said God spoke to them whether they were deluded, bluffing or high on drugs? The reflections, dialogues and arguments in this book address such questions often with humor, sometimes provocatively as when the author suggests the ancient gods have returned to invade the institutions of our great religions or when two spirits William and James viewing the world from afar voice their doubt as to whether the human species will ever attain the pinnacles of cooperation, reason, beauty and love. Ancient texts from the Mayan Popol Vuh through the Bible to the Chinese classics are invoked and the discoveries of modern science from anthropology to zoology are brought into play as the reader is gently led to an appreciation of the role of religious language in modern society. **World Christian Trends Ad30-ad2200 (hb)**, 2001. Current Trends in Management Consulting Anthony F. Buono, 2001-01-01.

Volume one in this series explores current trends in the management consulting industry. It covers broad changes, recent trends and techniques and reflections on the industry's state. The volume offers diverse insights and perspectives thanks to the contributions of various authors. **Our Global Environment** Anne Nadakavukaren, Jack Caravanos, 2020-01-23. Our Global Environment, regarded for decades as the quintessential introduction to environmental health for its authoritative coverage and cogent prose, provides a richly detailed survey of current environmental issues. In compelling language, Anne Nadakavukaren and new coauthor Jack Caravanos describe the crucial interdependence between humans and their environment, exploring the varied ways in which human activities have impacted, degraded or altered the environment and the consequences to both natural ecosystems and human health and well-being. The eighth edition features a new chapter on climate change and the public health impacts of global warming, incorporating the latest assessments of the Intergovernmental Panel on Climate Change with regard to the physical science basis, mitigation efforts and adaptation strategies. Extensive revisions and updates throughout the volume reflect current topics of concern, including the magnitude of global hunger and malnutrition, outbreaks of the Zika virus, vaping and the incidence of serious lung injury, MTBE contamination of groundwater, recycling of lead acid batteries in developing countries, mercury exposure among artisanal gold miners and lead-contaminated drinking water in Flint, Michigan and other communities. Readers will appreciate the addition of 16 pages of color images as well as the authors' emphasis on opportunities for public participation in the decision-making processes that profoundly influence health and environmental quality. **International Christian Literature Documentation Project** Douglas W.
