The ASTD Leadership Handbook Elaine Biech, 2010-10-25 A looming leadership gap faces most organizations over the next 10 years. Has your organization prepared for the imminent lack of leadership crisis? Do you have a pipeline of developed leaders for the future? Leadership is the most important competency for both individual and organizational success and advancement. As Cynthia D. McCauley of the Center for Creative Leadership notes in her overview, leadership is also a tool designed to help with a particular human dilemma: how to get individuals to work together effectively to produce collective outcomes. When you need to learn more about how to drive success in your organization, where do you turn? To the experts. And The ASTD Leadership Handbook provides 48 thought leaders the names you know and have come to trust to enable you to learn about every facet of leadership. Here you'll find a substantial and practical collection of wisdom, philosophies and tools from the most respected authorities on the subject. Within this impressive volume you'll find five major sections addressing the critical aspects of the field: Leadership Competencies, Leadership Development, Attributes of Successful Leaders, Contemporary Leadership Challenges, and Broadening the Leadership Discussion. In each chapter, leaders share their expertise to help you solve your most pressing leadership challenges. Get the complete table of contents here. The lineup includes leading experts from a broad range of organizations in both the public and private sectors and features a number from the Center for Creative Leadership ranked by the Financial Times as one of the top three leadership development organizations in the world. Many of the authors also provide free tools which you can get here. If you can invest in only one leadership book let this be it. Global Leadership Marshall Goldsmith, Cathy Greenberg, Alastair Robertson, Maya Hu-Chan, 2003-04-28 The follow up to Marshall Goldsmith's 500 000 copy bestseller The Leader of the Future, Global Leadership: The Next Generation systematically identifies what tomorrow's leaders will need to know, do and believe in order to successfully lead the global enterprise of the future. Drawing on the results of an extraordinary 2 year Accenture study of emerging business leaders, this book shows why the skills of today's global leaders won't be enough and why tomorrow's leaders won't resemble today's. Goldsmith and his co-authors first identify five new factors of leadership and their implications: global thinking, appreciation of diversity, technological savvy,

a willingness to partner and an openness to sharing leadership They explain what it will mean to lead in an era where intellectual capital is the dominant source of value how to lead people whose backgrounds and values may be radically dissimilar from yours and why achieving personal self mastery is now a fundamental prerequisite for leading others From the evolution of federated semi autonomous organizational structures to the personal leadership challenges now arising from globalism this book offers unprecedented insights into the new challenges of leadership and what it will take to meet them

Hunter, 2004-06-29 To lead is not to be the boss the head honcho or the brass To lead is to serve Although serving may imply weakness to some conjuring up a picture of the CEO waiting on the workforce hand and foot servant leadership is actually a robust revolutionary idea that can have significant impact on an organization's performance Jim Hunter champions this hard soft approach to leadership which turns bosses and managers into coaches and mentors By hard Hunter means that servant leaders can be hard nosed even autocratic when it comes to the basics of running the business determining the mission where the company is headed and values what the rules are that govern the journey and setting standards and accountability Servant leaders don't commission a poll or take a vote when it comes to these critical fundamentals After all that's what a leader's job is and people look to the leader to set the course and establish standards But once that direction is provided servant leaders turn the organizational structure upside down They focus on giving employees everything they need to win be it resources time guidance or inspiration Servant leaders know that providing for people and engaging hearts and minds foster a workforce that understands the benefits of striving for the greater good The emphasis is on building authority not power or exerting influence not intimidation While many believe that servant leadership is a wonderful inspiring idea what's been missing is the how to the specifics of implementation Jim Hunter shows how to do the right thing for the people you lead A servant leader or a self serving leader Which one are you With Jim Hunter's guidance everyone has the potential to develop into a leader with character who leads with authority *The Leader's Change Handbook* Jay A.
