**Transmedia Storytelling and the Apocalypse** Stephen Joyce, 2018-08-21 This book confronts the question of why our culture is so fascinated by the apocalypse. It ultimately argues that while many see the post apocalyptic genre as reflective of contemporary fears, it has actually co-evolved with the transformations in our mediascape to become a perfect vehicle for transmedia storytelling. The post apocalyptic offers audiences a portal to a fantasy world that is at once strange and familiar, offers a high degree of internal consistency and completeness, and allows for a diversity of stories by different creative teams in the same story world. With case studies of franchises such as The Walking Dead and The Terminator, Transmedia Storytelling and the Apocalypse offers analyses of how shifts in media industries and reception cultures have promoted a new kind of open world building narrative across film, television, video games and print. For transmedia scholars and fans of the genre, this book shows how the end of the world is really just the beginning.

**Blueprint**, 2009 **Science Fiction and Contemporary British Theatre** Ian Farnell, 2025-07-24 Analysing an expanding body of theatre and performance works, Science Fiction and Contemporary British Theatre examines how the themes and images of science fiction are enabling practitioners to intervene on the most urgent social and political issues of the present moment. By exploring the genre's impact on the live theatrical event, the book presents an original and topical interrogation of issues that remain at the heart of the national and global political agenda, including military conflict, social injustice, economic inequality, migration, nationhood, anti-democratic populism and climate collapse. The author draws upon a wide range of dramatic forms from critically acclaimed plays by writers such as Alistair McDowall, Caryl Churchill, Dawn King, Anne Washburn and Ella Road to devised work, site specific performance, Shakespearean drama and physical theatre. The book's chapters are based on some of the genre's most resonant images, including post-apocalyptic wildernesses, dystopian regimes and artificial lifeforms. Furthermore, by placing examples in dialogue with a range of theories and scholars, this book constructs an innovative interdisciplinary framework comprised of theatre studies, sociology, philosophy, economic and political science. Providing an engagingly written, intellectually rich and uniquely compelling analysis, Science Fiction and Contemporary British Theatre charts a new and growing landscape of scholarly research and establishes science fiction as an exciting, expanding and urgent dramatic and political practice.

#### **Sublimation and Superego**

Jared Russell,2021-11-29 This book integrates thinking about dilemmas faced in the context of the clinical practice of psychoanalysis today with contemporary social and political concerns specific to the age of the global consumer marketplace Beginning with an analysis of the fate of the concept of sublimation in Freud s work and its relationship to the elaboration of the concept of the superego in 1923 Jared Russell examines how these concepts provide a lever for integrating psychoanalytic thinking with topics of urgent social concern beyond the critique of ideology Taking up topics such as the experience of time addiction to consumption and the general consequences of the insinuation of digital technologies at increasingly earlier stages in human development and thinking these through the lens of what the clinical practice of psychoanalysis teaches us about intimate human relatedness the book addresses how a philosophically oriented approach to psychoanalysis can illuminate our response to the problems of everyday life under conditions of late capitalism Drawing on a diverse range of authors such as Freud Heidegger Hans Loewald Christopher Bollas Lacan Deleuze and Bernard Stiegler it is argued that the concepts of sublimation and of the superego must be reinvented with regard to both clinical and critical discourse today if psychoanalysis is to remain relevant to the major issues we face both individually and collectively in the twenty first century Sublimation and Superego Psychoanalysis Between Two Deaths stages a unique encounter between philosophy critical theory and clinical practice that will be of interest to psychoanalysts scholars of twentieth century
