**Thinking in Images** Catherine Constable,2019-07-25

Thinking in Images addresses the current crisis in film theory by offering a new methodology for interrelating theory and film texts Drawing on the groundbreaking work of Michele Le Doeuff the author argues that philosophy is reliant on socio cultural images such as the figures of the veiled woman the femme fatale and the seductress The author traces the key role played by such images of woman in the theorisations of beauty art and truth offered by Nietzsche and his successors Derrida Kofman and Baudrillard Importantly the recognition that images are crucial to theorising means that film images have the capacity to challenge and change previous theoretical models This is demonstrated by a case study of three films from the Dietrich

Sternberg cycle The Scarlet Empress The Devil is a Woman and Shanghai Express The detailed readings focus on the ways in which Dietrich s glamorous characters challenge the theorisation of woman as a beautiful object thus offering new ways of conceptualising woman s role as the icon of beauty art and truth
