The Transformative Potential of

LGBTQ+ Children's Picture Books Jennifer Miller,2022-05-23 2023 CHOICE Outstanding Academic Title In The Transformative Potential of LGBTQ Children s Picture Books Jennifer Miller identifies an archive of over 150 English language children s picture books that explicitly represent LGBTQ identities expressions and issues This archive is then analyzed to explore the evolution of LGBTQ characters and content from the 1970s to the present Miller describes dominant tropes that emerge in the field to analyze historical shifts in representational practices which she suggests parallel larger

sociocultural shifts in the visibility of LGBTQ identities. Additionally, Miller considers material constraints and possibilities affecting the production, distribution, and consumption of LGBTQ children's picture books from the 1970s to the present. This foundational work defines the field of LGBTQ children's picture books thoroughly yet accessibly. In addition to laying the groundwork for further research, *The Transformative Potential of LGBTQ Children's Picture Books* presents a reading lens critical optimism used to analyze the transformative potential of LGBTQ children's picture books. Many texts remain attached to heteronormative family forms and raced and classed models of success. However, by considering what these books put into the world as well as problematic aspects of the world reproduced within them, Miller argues that LGBTQ children's picture books are an essential world-making project and seek to usher in a transformed world as well as a significant historical archive that reflects material and representational shifts in dominant and subcultural understandings of gender and sexuality.

Filming the Children's Book Hermansson, Casie Hermansson, 2018-12-19. Just as a work of self-reflexive metafiction and the experience of reading it differ from other types of literature, the work and the experience of viewing films that adapt metafiction are distinct from those of other films and from other film adaptations of literary works. This book explores the adaptation of children's metafictions including works such as *Inkheart*, *The Invention of Hugo Cabret*, and the *Harry Potter* series. Not only are the plot devices of books and reading explored on screen in these adaptations, but so is the nature of transmedial adaptation itself, the act of representing one work of art in another medium. Analysing the work done by children's metafiction and the experience of reading it, Casie E. Hermansson situates the adaptations of these types of books to film within contemporary adaptation criticism.
